

## Screen Views

**Double heads flash**  
Press side button once to select unit (both heads)  
Press a second time to select A head  
Press a third time to select B head

Back Save Exit

**2 pages dashboard**  
When there is 5 units or more, units are shown on 2 pages or more. Swipe to access other pages (Touchscreen is automatically activated)

**Sub-menu screen**  
Swipe left or right to change value between the arrows

## Connection

Battery compartment

Hotshoe

Tab to open the battery compartment

Hotshoe lock

**Battery**  
Use only AA Batteries.

**Attaching**  
1. Turn off the camera and the Elinchrom transmitter.  
2. Align the Elinchrom transmitter's hotshoe with the camera's hotshoe mount.  
3. Slide it all the way on the camera's hotshoe mount.  
4. Lock the mounting foot from left to right until the locking lever clicks in place.

**Detaching**  
1. Unlock; press the lock-release button while sliding from right to left.  
2. Slide the Elinchrom transmitter off the camera's hotshoe mount.

**Reset To Default Settings**  
Go to menu, select i icon (info), press "Factory Reset", and confirm to reset to factory settings

**FCC Statement**  
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
•Reorient or relocate the receiving antenna.  
•Increase the separation between the equipment and receiver.  
•Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
•Consult the dealer or an experienced radio/TV technician for help.  
Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**RF Exposure Information**  
The device has been evaluated to meet general RF exposure requirement.  
The device can be used in portable exposure condition, compliance with exposure requirements.

**ISED Statement**  
This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:  
This device may not cause interference.  
This device must accept any interference, including interference that may cause undesired operation of the device.

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment.  
The digital apparatus complies with Canadian CAN ICES-3 (B)/NMB-3(B).  
This device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and compliance with RSS 102 RF exposure, users can obtain Canadian information on RF exposure and compliance.  
This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment.  
The device has been evaluated to meet general RF exposure requirement. This equipment should be installed and operated with minimum distance 0mm between the radiator & your body.

Cet appareil contient des émetteurs/récepteurs exempts de licence est conforme aux normes RSS exemptes de licence d'Industrie Canada. Son fonctionnement est sujet aux deux conditions suivantes:  
Cet appareil ne doit pas provoquer d'interférences nuisibles, et  
Cet appareil doit accepter toute interférence reçue, y compris des interférences susceptibles de provoquer un fonctionnement indésirable de l'appareil.  
Cet appareil numérique est conforme à la norme canadienne CAN ICES-3 (B)/NMB-3(B).  
Cet appareil est conforme à l'exemption des limites d'évaluation courante dans la section 2.5 du cr - 102 et en conformité avec les 102 de l'exposition aux rf, les utilisateurs peuvent obtenir des données canadiennes sur l'exposition aux champs rf et la conformité.  
Cet équipement est conforme aux limites d'exposition aux rayonnements du Canada établies pour un environnement non contrôlé. L'appareil a été évalué pour répondre aux exigences générales d'exposition aux RF. Cet équipement doit être installé et utilisé avec une distance minimale de 0 mm entre le radiateur et votre corps.
