Introduction

Based out of Torrance, California, USA, Dogtra Company produces the world's finest e-collars. Dogtra's focus is on offering user-friendly e-collars that are designed for the most demanding training conditions. Dogtra offers a complete line of e-collars from small-breed pet trainers to a variety of sporting dog units as well as for K-9 Police work.

Why Dogtra?

Is your dog controlling your life? Does it steal food from the counter, nuisance bark, pull you on walks, or ignore you when called at home or in the hunting field? If you answered yes to any or all of these questions, then it's time to take charge with a Dogtra e-collar. Regardless of your dog's behavior issues, Dogtra has an e-collar to fit your needs. Our patented Exact-stim, stimulation control, offers an exact correction level for every dog's temperament, without jumps in between levels. Coupled with our non-stimulating attention getter pager/vibration feature, you have all the tools you need to modify your dog's behavior.

Major features found on Dogtra E-collars

Stimulation Levels

Our patented Exact-stim, stimulation control offers the precise correction level for every dog's temperament. The Exact-stim gives you a wide range of stimulation without jumps in between levels.

Stimulation Types – “Nick” and “Constant”

Nick stimulation is a momentary rapid burst of stimulation to get your dogs attention. Constant stimulation is a continuous stimulation that is applied as long as the button is depressed with a 12 second safety shut off feature.

Non-stimulating Attention Getter

The pager is a non-stimulating attention getter where the receiver/collar vibrates to get the dogs attention without stimulation.

Receiver/Collar Size

Our low/medium output units have a reduced receiver designed for dogs as small as 15 lbs. Our low/high output units can be used comfortably on dogs as small as 35 lbs.

Stimulation Output

Dogtra offers two types of stimulation output units. Our low/medium output units are for dogs with mild dispositions, and low/high output units are for stubborn dogs or for demanding training situations.

Waterproof

Most Dogtra e-collars are fully waterproof (both handheld transmitter and receiver/collar). Note: the iQ Pet series handheld transmitters are water-resistant.

Ranges

Dogtra offers a full line of e-collars with different ranges for a variety of uses: 1 mile, ¾ mile, ½ mile, and 400 yards.

Battery Type/Charging Time

Ni-MH batteries, 10-hr charging time.
Lithium Polymer batteries, 2-hr rapid charge.

Liquid Crystal Display LCD

Most units have an LCD screen so you can view the exact stimulation level and remaining battery life. The screen has a back light for low light or night time usage.

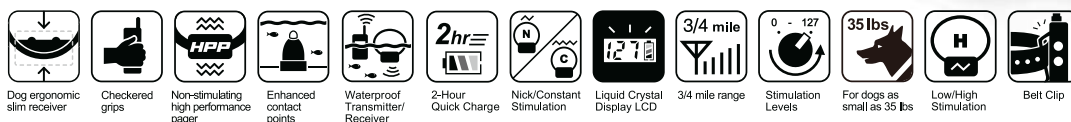

Belt Clip

Some units have a belt clip for easy carrying of the transmitter.

1900S

The 1900S is a versatile e-collar made for pet, K-9, and sport dog training where high output is required.

- Dog ergonomic receiver/collar
- Checkered grips on the handheld transmitter
- 'Nick' and 'Constant' stimulation along with the High Performance Pager
- Enhanced contact points
- Precise stimulation level (0-127)
- 3/4 mile range
- 2-hour rapid charge Lithium Polymer batteries
- Low to high power stimulation
- Fully waterproof transmitter and receiver/collar
- LCD screen displays exact level of stimulation even in dark or low light conditions
- Also available in 2-dog unit: 1902S

ARC

The Dogtra ARC features a low profile receiver collar that is ergonomically shaped to your dog's neck.

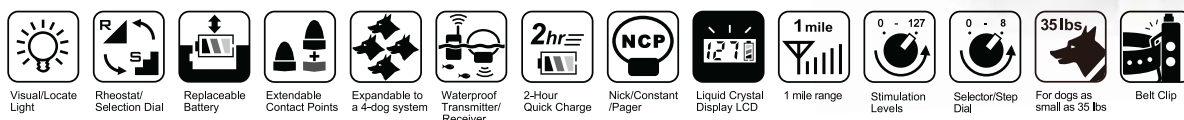

- Slim design receiver/collar ergonomically shaped to your dog's neck
- 'Nick' and 'Constant' stimulation along with a non-stimulating pager/vibration
- Checkered grips on the handheld transmitter
- User expandable to a two-dog system
- LCD screen displays exact level of stimulation even in dark or low light conditions
- Fully waterproof transmitter and receiver/collar
- Low to medium power stimulation
- 3/4 mile range
- Rechargeable 2-hour rapid charge Lithium Polymer battery
- Precise stimulation level (0-127)

EDGE

The EDGE is a fully customizable/expandable e-collar designed for professionals and serious amateurs.

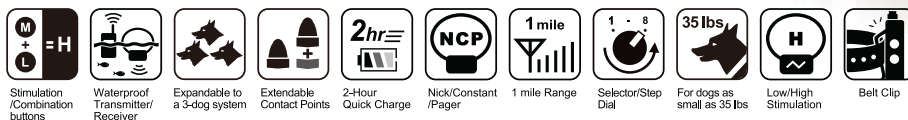

- Interchangeable Rheostat intensity dial or Selector "Step" dial stimulation
- Stimulation types in Nick, Constant, and a non-stimulating Pager vibration mode
- Built in high intensity LED lights on the receiver/collar
- 2-hour rapid charge Lithium Polymer batteries
- LCD screen displays exact level of stimulation even in dark or low light conditions
- Fully waterproof transmitter and receiver/collar
- 1 mile range
- Expandable to a two, three, or four-dog system
- Extendable contact points (5/8" to 3/4")

EDGE RT

The New Dogtra EDGE RT is designed for the most demanding training environments.

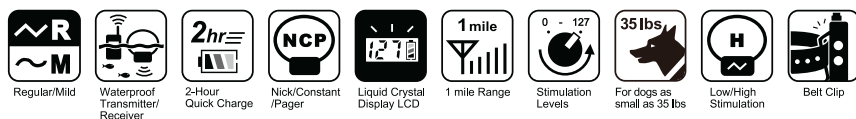

- Stimulation/Combination buttons
- User expandable to a three-dog system
- 'Nick' and 'Constant' stimulation along with a non-stimulating pager/vibration
- 2-hour rapid charge Lithium Polymer batteries
- Low to high power stimulation
- Fully waterproof transmitter and receiver/collar
- Selector/Step dial with stimulation levels 1-8
- 1 mile range
- Extendable contact points (5/8" to 3/4")

3500NCP Super-X

The 3500NCP labeled the Super-X because of the X-tra features, X-ceptional range and is designed for X-treme training situations!

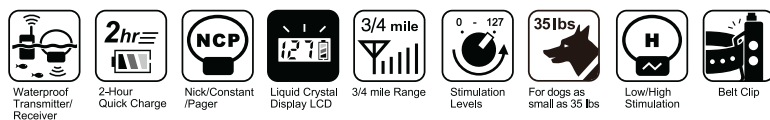

- Precise stimulation level (0-127)
- 1 mile range
- Stimulation types in Nick, Constant, and a non-stimulating Pager vibration mode
- 2-hour rapid charge Lithium Polymer batteries
- Fully waterproof transmitter and receiver/collar
- LCD screen displays exact level of stimulation even in dark or low light conditions
- Regular/mild setting toggle switch, gives you the option to adjust the range of stimulation levels for your dog's sensitivity
- Three bar battery life indicator
- Also available in 2-dog unit: 3502NCP

2300NCP Advance

The 2300NCP Advance is a multipurpose e-collar. It is designed for advanced level pet training, competition training, K-9 work or any type of hunting where a 3/4-mile range is needed.

- Precise stimulation level (0-127)
- 3/4 mile range
- Stimulation types in Nick, Constant, and a non-stimulating Pager vibration mode
- 2-hour rapid charge Lithium Polymer batteries
- Fully waterproof transmitter and receiver/collar
- LCD screen displays exact level of stimulation even in dark or low light conditions
- Three bar battery life indicator
- Also available in 2-dog unit: 2302NCP

280C

The 280C is an ultra-compact system that packs all the features of larger Dogtra collars but designed for dogs as small as 10 lbs.

- Ultra-compact receiver/collar designed for smaller dogs
- Checkered grips on the handheld transmitter
- 'Nick' and 'Constant' stimulation along with the High Performance Pager
- Enhanced contact points
- Precise stimulation level (0-127)
- 1/2 mile range
- 2-hour rapid charge Lithium Polymer batteries
- Low to medium power stimulation
- Fully waterproof transmitter and receiver/collar
- LCD screen displays exact level of stimulation even in dark or low light conditions
- Also available in 2-dog unit: 282C

Element 300M

The Element 300M has all the basic components needed for successful behavior management of your dog. Designed for mild mannered dogs that do not require a high level of stimulation.

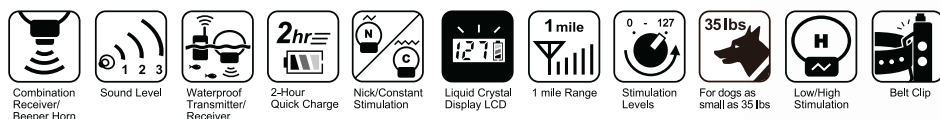

- Precise stimulation level (0-100)
- Reduced receiver/collar designed for smaller dogs
- Stimulation types in Nick, Constant, and a non-stimulating Pager vibration mode
- 1/2 mile range
- Rechargeable Ni-MH batteries
- Fully waterproof transmitter and receiver/collar
- LED battery life indicator
- Low to medium power stimulation
- Also available in 2-dog unit: 302M

2500T&B

The next generation of compact training & beeper collars, designed for the serious upland hunter. Dogtra's 2500 T&B's beeper horn is built into the receiver and eliminates the bulky horn that sits on top of your dog's head like other beeper units.

- Precise stimulation level (0-127)
- 1 mile range
- Nick and Constant stimulation
- High and Low tone beeper (Single-dog unit only)
- Three beeper modes - 'Run & Point', 'Point Only', and 'Locate'
- 2-hour rapid charge Lithium Polymer batteries
- Fully waterproof transmitter and receiver/collar
- LCD screen displays exact level of stimulation even in dark or low light conditions
- Also available in 2-dog unit : 2502T&B

YS 500

Fully-waterproof no-bark collar designed for medium and large breeds, with the same reliable electronics found in the popular Dogtra e-collars.

- Activates from the vibration of the dog's vocal cords
- Convenient dial that controls the ON/OFF function and the seven intensity levels
- Receiver weight - 7.5 ounces for medium to large breeds
- LED battery life indicator
- Fully waterproof
- Rechargeable Ni-MH battery

YS 300

Bark activated no-bark collar for small to medium size dogs.

- "Bark Recognition" that distinguishes a dogs barking from its surrounding ambient noises
- Non-electrical stimulation vibration warning prior to the stimulation
- 6 intensity levels (2-7) for a wide variety of dispositions
- Fits dogs as small as 10 lbs (Receiver weight : 4.0 ounces)
- 2-hour rapid charge Lithium Polymer battery
- LED battery life Indicator
- Fully waterproof

eF-3000 Gold

The Dogtra eF-3000 Gold, yard containment system, allows your dog the freedom it deserves without the use of an unsightly fence in your yard.

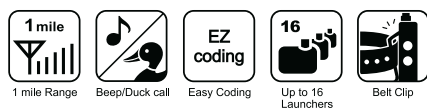

- Waterproof receiver/collar
- Pager/vibration signal that warns the dog prior to electrical stimulation/correction
- Wire continuity indicator shows that the fence is in operational condition
- Five levels of intensity control on each receiver/collar, to match each dog's temperament
- Safety disconnect feature, the unit reactivates when the dog approaches the boundary again
- Easy to add additional receiver/collar
- Sleep mode to save battery life when your dog is playing safely within the boundary
- 2-hour rapid charge Lithium Polymer battery
- Fits dogs as small as 15 lbs (Receiver weight : 4.0 ounces)
- Long-range signal, 40 acres maximum area coverage

RR Deluxe

Designed for the Dogtra PL and QL bird launchers but is compatible with most after-market bird/bumper launcher systems. The RR Deluxe features the most advanced technology to help sharpen your dog's skills for upland hunting, retriever work, or for competitions.

- Advanced 2 port system so you can run two launchers off one receiver (extension cable required)
- Dual sound attention getter features a realistic duck or beep sound
- A maximum of 16 launchers can be operated off a single transmitter (extra receivers required)
- User friendly coding means you can add extra receivers and match them any time, anywhere
- 1 mile range
- Rechargeable Ni-MH batteries
- Multi colored LED light battery life indicator

PL / QL Launcher

The PL and QL bird launcher systems are great tools to help train your hunting dog.

The PL launcher is designed for pheasant and chukar size game birds. The QL launcher is designed for quail or barn pigeon size birds.

- Maximum air flow for scent distribution
- Adjustable spring tension allows adjustment of throwing height

- Dimensions : QL = 8.6" x 4.5" x 4.3"

PL = 13.2" x 6.9" x 6.9"

(RR Deluxe electronics are needed to operate either PL or QL launcher and are sold separately)

Why iQ Pet?

iQ Pet understands the importance of basic obedience and having the right training tool makes all the difference. A well behaved dog allows you to relax and enjoy your time with your furry friend. iQ Pet creates products to help bridge the communication gap between dogs and people. Our iQ Pet products were designed specifically to enhance your relationship with your dog, from our dog activity tracker StarWalk to our compact e-collars, iQ Pet delivers solutions for all your dog's needs.

www.iqpet.com

StarWalk

StarWalk is an application-based activity tracking device for dogs. Owners simply attach the lightweight device to a dog's collar and sync the device with the downloadable app.

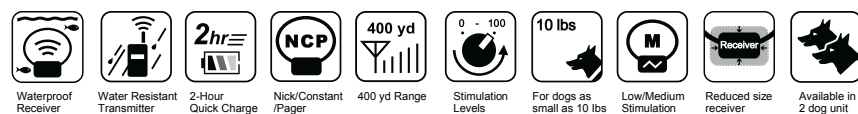

- Customizable LED light colors (6 colors)
- Programmable reminder notification under my dog alerts
- Track exercise and activity goals
- Detailed analysis by the hour
- Compare activity with other dogs
- Smart Lights for activity, alerts, and goal tracking
- LED Light (night walking mode)
- Battery life indicator
- Waterproof
- Universal attachment bracket for dog collar

iQ Plus+

The iQ Plus combines many of the features found in full size remote trainers, in a compact form, great for dogs of a variety of sizes. The iQ Plus is also fully expandable up to a two-dog system, using one handheld remote.

- Reduced size receiver/collar
- Precise stimulation level (0-100)
- 400 yard range
- Stimulation types in Nick, Constant, and a non-stimulating Pager vibration mode
- 2-hour rapid charge Lithium Polymer batteries
- Fully waterproof receiver/collar and water-resistant transmitter
- Low to medium power stimulation
- For dogs as small as 10 lbs
- User expandable to a two-dog system

Expandable to a 2-dog system

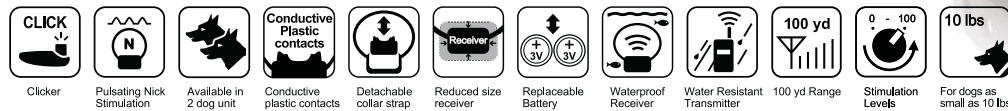

The iQ Plus is expandable up to a 2-dog system. Just add an Additional Receiver/ Collar to control up to two dogs with one handheld remote.

iQ CLiQ

The clicker is a simple training tool that helps shape your dog's basic obedience. Pair this with an e-collar to curb unwanted behaviors and you have the iQ CLiQ: the first complete and truly innovative dog training system on the market today.

- Transmitter with built-in clicker
- Reduced size receiver
- Detachable collar strap
- Conductive plastic contacts
- Fully waterproof receiver collar
- Precise stimulation level (0-100)
- Nick and Pulsating nick stimulation
- Lithium batteries (CR2032) included (4)
- 100 yard range
- User expandable to a two-dog system

iQ No Bark Collar

Need a safe alternative to stop unwanted barking? Our dog friendly features include a learning vibration system that vibrates before any correction, which means a fast learning curve with less stimulation. Don't give up, and teach your dog to control barking.

- Learning vibration system
- 10 levels of stimulation and a non-stimulating vibration mode
- Reduced size receiver
- Fully waterproof
- Detachable collar strap
- Replaceable coin lithium batteries (CR2032) included (2)
- Bark recognition sensor
- Fits small to large dogs

4 colors
