Product Features

A Type-C data transmission interface

B Multimedia Shortcut Keys

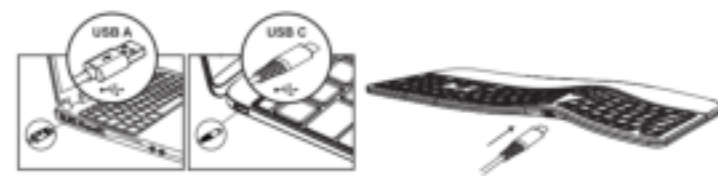

C FN Lock Green Indicator Light

1. When the FN lock indicator light is on, press the multimedia function keys directly to activate their multimedia functions.
2. When the FN lock indicator light is off, pressing the keys will perform the standard F-key functions.

D Caps Lock Green Indicator Light

Wired Connection Usage

Connect one end of the USB A or USB C data cable to the computer, and plug the other end of the USB C connector into the keyboard. The keyboard backlight will light up and you can use the keyboard.

Keyboard Backlight Settings

Keyboard backlight color setting

The keyboard defaults to white backlight after powering on. To change the backlight color, simply click the " " key. The backlight color will cycle in the following order: white → red → yellow → green → cyan → blue → purple → white.

Keyboard Backlight Brightness Setting

When the computer is turned on, the keyboard defaults to the second level of backlight brightness. After pressing the " " key, the backlight brightness will be adjusted in the following order: Level 2 → Level 3 → Level 1 → Off.
