Regulatory Notice: Waste Electrical and Electronic Equipment (WEEE) Disposal

The Waste Electrical and Electronic Equipment (WEEE) Directive is designed to mitigate the environmental impact of electrical and electronic goods. Its objective is to promote re-use and recycling while minimizing the amount of WEEE ending up in landfills. The symbol displayed on this product or its packaging indicates that it must be disposed of separately from regular household waste at the end of its life cycle. Please be aware that it is your responsibility to ensure the proper disposal of electronic equipment at designated recycling centers.

Every country typically has designated collection centers for the recycling of electrical and electronic equipment. For information regarding the nearest recycling drop-off location, kindly reach out to your local electrical and electronic equipment waste management authority, your municipal office, or your household waste disposal service.

This device including electrical accessories is compatible with applicable local directives restricting the use of certain hazardous substances in electrical and electronic equipment, such as the EU REACH, RoHS and WEEE directives. Please refer to our website [www.tecno-mobile.com](http://www.tecno-mobile.com) for the relevant declarations of conformity.

FCC Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**FCC RF Exposure Information and Statement:**  
The SAR limit of USA (FCC) is 4.0 W/kg averaged over one gram of tissue. Device types: AG01 (FCC ID: 2ADY9-AG01) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification properly the limbs is 0.89W/kg. This device was tested for typical limbs operations with the PC Handheld device kept 0mm from the Limbs. To maintain compliance with FCC RF exposure requirements, please maintain a distance of 0 millimeters between the user's limbs and the PC handheld device when using. Control of or communications with unmanned aircraft systems is prohibited, including drones.

**Vulnerability Response**  
Safeguarding against security issues is a top priority for us and we welcome anyone with a security background to report potential security vulnerabilities to us to improve the security of our products and services.

1. Monitor and promptly assign received vulnerabilities
2. Verify the vulnerability and confirm the exploitability and impact
3. Develop Solution Provide effective solutions or risk remediation measures
4. Confirm Scope Investigate and confirm the scope of affected products
5. Release Security Advisory Review and publish the security advisory (SA) for the vulnerability

Report Vulnerabilities

Please report any security vulnerabilities via email to:  
[haoyan.zhang@tencent.com](mailto:haoyan.zhang@tencent.com)

The email should include at least the following information, ideally as an attachment in **this format**:

- Your organization and contact information
- Products and versions affected
- Description of potential vulnerability
- Information about known exploits
- Disclosure plans

**Response Time**  
We'll respond within 72 hours to any vulnerabilities you submit.  
(Actual vulnerability response time may vary depending on the risk level and complexity of the vulnerability)

**Vulnerability Disclosure Instructions**  
When an external party discovers or is concerned about a potential vulnerability, but we have not yet fully confirmed it, we will disclose basic information about the vulnerability and our investigation via email. The vulnerability information will be disclosed to the external party and CNO releases the formal security advisory to the public. When the vulnerability has been confirmed to be fixed, new firmware will be released, and a *firmware* update change log will be published, containing a description of the vulnerabilities that have been solved.

**Product Support Policy**

We strive to provide continuous security updates for our products. The security updates generally include the latest patches, vulnerability fixes, and other security improvements. We will generally maintain security updates for at least two years from the launch date of a product. However, the security update situation may vary by product, so please pay attention to our announcements. We will regularly publish and update information about the security of TECNO products on this page to help you check your device's security updates.
