KZED BODY INFRARED THERMOMETER

Features

K7FD-8801 contact thermometer has non been clinically tested in several big teaching hospitals based regulatory standard, covering sufficient febrile and normal body temperature subjects with satisfied clinical repeatability and measuring accuracy comparing the concurrent oral temperature measurement readina.

Specification

• Display: LCD Screen

Display range: 32°C~43°C

• Temperature unit: °C/°F

Temperature resolution: 0.1°C/°F

Measuring distance: 1cm~3cm

Memory array: 32 groups

Clinical repeatability: ±0.3°C

Maximum allowable error: ±0.2℃

Operating environment:

• Temperature: 10° C $\sim 40^{\circ}$ C

Relative humidity: ≤ 85%

Transportation: -20 °C~55 °C

Relative humidity: ≤ 85%

Automatic standby time: 20 seconds

Size: 160×100×40mm

Weight: 123g

Package Included:1xLCD Infrared Forehead

Thermometer

Marketed by Alegro (Polland)

1 Year Warranty

Note: 60pcs Per Box

Brand: KZED
