Remark

^[1] When installing two 2.5" SSDs in this position, ensure the connectors face the rear to prevent interference.

^[2] When mounting a 360mm radiator in this position, ensure the inlet and outlet tubes are orientated toward the front to prevent interference.

^[3] When mounting a 240mm radiator in this position, graphics card clearance is limited to 281mm, including power connectors. Ensure the fans are installed between the radiator and motherboard tray to accommodate this restriction.
