

Easy Setup

1

Connect WiFi in the WLAN setting :
Wireless-N or Wireless-AC.

2

Open a browser such as "Safari", enter the
address: `http://ap.setup` or `192.168.10.1`,
enter the password: admin.

3

After entering the interface, click
Wizard, select AP (LAN Bridge).

4

Change the security mode to
WPA / WPA2 Mix.

5

You can change SSID name and
password, click "APPLY".

6

Find the new WiFi in the WLAN
setting. Connect it.
