Warranty instructions

Sincerely thank you for choosing to use our company's intelligent red wine freezing machine. The main machine is guaranteed for one year from the date of purchase, and damaged parts are not covered by the warranty. During the warranty period, any faults caused by the machine's own quality under normal use shall be repaired.

Symptoms	Possible causes	Solutions
The Cooler doesn't work	1. There is power failure. 2. DC head of the power adapter is not connected to the host of cooler properly. 3. The standard adapter is not used, and the voltage of other adapters is too high, causing the electrical control damage of cooler.	1. Ensure the cooler is plugged in and the power socket is turned on. 2. Make sure DC head of the power adapter connect to the host of cooler properly. 3. Replace new machine.
Cooler is not reaching desired temperature	1. The cooler is placed too high room temperature. 2. No sufficient ventilation. 3. The caliber of the bottle is too small.	1. Keep the cooler away from sunlight or heat source and place it in good ventilation. 2. Ensure there is no barrier 3-5inch distant of ventilation of cooler. 3. This product is suitable for a single bottle with a diameter of 70-80mm.

Below Situation Not Include In Warranty

1.Have no valid buying certification and warranty card.

2.Shell damage or physical damage by human.

3.Fall,extrusion,soaking,damp or other human-caused damage.

4.Damage by natural disasters like flood,fire,lightning stroke.
