Oxygen 2

EN

English (EN)

1. Charge your watch with the supplied cable before using it for the first time.
2. Download and install the control APP on your phone by:
   a) Scanning the QR code:
   b) Search Play Store / APP Store for Da Fit APP
3. During the installation process give the application permission to work and to access the required phone resources (phonebook, SMS, camera, etc.)
4. Set your sex, age, weight and height in the app and set activity goals.
5. Enable on your phone:
   a) BT and GPS location (Android phones)
   b) BT (iOS phones)
6. Connecting the watch with the application
   a) Click on the „Device” icon on the bottom menu bar of the application, then >Choose device< at the top of the screen. After searching for your FW64 watch, You click „Connect”. A successful connection automatically sets the date and time of the watch.
   b) To activate the ability to talk on the watch:

- activate the watch screen and move the screen down and then click the telephone

handset icon in the upper left corner of the screen - blue color means active function.

- search in the BT menu of the smartphone FW64 and connect

7. Common problems with connecting SMART devices

a) Turn on BT (the phone must be visible to other devices)

b) Enable GPS/Location (Android devices)

c) Install the application and give it permission during the installation process (for background work, access to multimedia, etc.)

d) Connect to the watch USING THE APP

If unsuccessful then:

a) Check if GPS is turned on

b) In phone settings > Applications and notifications > Application permissions > permission to work in the background and notifications

c) Check if the watch/band is not already connected to the phone via the BT menu, if so > BT menu > forget device > and then connect via the application

8. FINAL REMARKS:

In the absence of reminders/messages (SMS, Messenger, skype, X, etc.) on the watch:

a) Allow the app to access contacts, messages and selected social media in the app

b) In Android phones, the same operation as above is often required in the phone settings (usually: Settings>Applications>Permissions)

c) When the watch breaks connection with the phone

- Check the power management in the phone settings so that the control application runs in the background without saving battery. Typically: Settings>Battery/power management>Apps>(app name)>don’t spare

- Optional: on the main screen, hold down the application icon (only works on some Android versions) to display its menu > application information > battery usage / battery > ... (each manufacturer calls it a bit differently: unlimited / allow foreground work etc.)

d) BT is not connected or cannot connect:

- Reset your watch and reconnect

- Restart your phone and reconnect

- Disconnect all other BT devices

9. Full instructions and more information at www.maxcom.pl and the QR code below
