## INSTRUCTION MANUAL

# OB3000

Sealing Plug for WS440-A

This manual corresponds to the following reference:

**OB3000**

## Packing list

The following items are included:

**Sealing Plug for WS440-A ...** 1 set  
*each set contains 10 plugs*

**Instruction Manual .....** 1 unit  
Ref. 0027688

## Use of the Sealing Plug

OB3000 only fits in wire stripper models with ref. **WS440-A**.

The sealing plug prevents undesirable flux vapors or particles from entering the tool and its usage is highly recommended.

 If the sealing plug is not used, this can lead to incorrect cartridge contact and may render the tool unusable.

**Important:** Check the condition of the sealing plug periodically and replace it as soon as wear or cracking is detected.

## Replacing Sealing Plugs

Before replacing the sealing plug, unplug the power supply and make sure the tool and the cartridges are not hot.

### Removing Sealing Plug

Introduce a small shaft or screwdriver, not deeper than 8 mm, lift and pull the worn sealing plug out.

Never use a cartridge to do this operation.

### Mounting Position

**Note:** To insert the new sealing plug, the chamfered side must be positioned towards the tool.

### Inserting Sealing Plug

Gently push the sealing plug inside the tool until it is placed completely into the tool bushing. The sealing plug and the tool bushing edges have to be aligned.

# Specifications

## OB3000

### Sealing Plug for WS440-A

Ref.: OB3000

- Sealing Plug Dimension: 0 x 8 x 8 mm / 0.39 x 0.31 x 0.31 in
- Total Net Weight (10units): 6 g / 0.013 lb
- Package Dimensions/Weight: 92 x 55 x 41 mm / 16 g  
(L x W x H) 3.62 x 2.17 x 1.61 in / 0.035 lb

Complies with CE standards.
