

ionchill™ minicooler

User Manual

Available in 3 Colors:  White  Red  Black

Introduction & Features

The tzumi ionchill is perfect for home and office use as well as in the nursery, bathroom, on a vanity, or in a dorm room. Its super chilled, 4 liter interior is capable of holding six 12 ounce cans as well as being an ideal place to store your favorite skin care products. Plus, we’ve included both AC and DC power cords to make the switch from a standard outlet (110V) to a car outlet (12V) simple and convenient. Also built with a convenient pocket door for added storage and a removable shelf for additional versatility, the tzumi ionchill gives your items the space and invigorating temperatures they need – either at home or on the go!

- Well insulated & made with high quality materials
- Simply wipe to clean
- Eco-friendly – no freon or chemicals used

Household Power (AC 110V-240V)

1. Make sure the switch on the back of the ionchill is in the OFF position.
2. Plug the AC power adapter into the DC socket at the back of the ionchill.
3. Connect the AC adapter to an AC wall outlet.
4. Slide the power switch to the ON position. The green light will go on and the COOLING begins.

Vehicle Power (DC 12V)

1. Make sure the switch at the back of the ionchill is in the OFF position.
2. Plug the DC 12V connection cable into the DC socket at the back of the ionchill.
3. With the vehicle on, connect the other end of the cigarette lighter socket into your vehicle.
4. Slide the power switch to the ON position. The green light will go on and the COOLING begins.

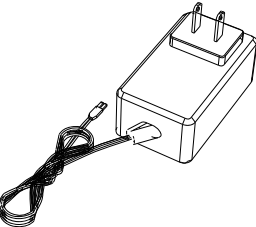

Warning & Notice

Please read below before using your tzumi ionchill

1. To prevent the fan from stopping, the unit over- heating then causing a fire, please do not cover the fan with any kind of cloth, towel, etc.
2. Make sure the power cords are firmly attached to the unit and snugly plugged into the outlet(s).
3. Keep the tzumi ionchill away from flammable items and moisture to prevent possible over-heating, fires, and/or explosions.
4. Do not take the ionchill apart or attempt to reconfigure it.
5. Do not rinse with water - use a damp cloth.
