Boom Arm W/Rapid Coupler Setup

Rapid Coupler Assembly

- Loosen the knob of the rapid coupler and rotate it.

- Re-tighten its knob to secure it at the desired position.

Boom Arm Mounting on Hex Mounting Post

- Pull the locking cap of the Hex Stand **(Not Included)** backward.
- Then, mount the Boom Arm on the Hex Stand.

- After mounting the Boom Arm, re-tighten the knob to secure it.

NOTE: Compatible with a tripod stand featuring a hex mounting post, the boom arm seamlessly integrates into your existing equipment setup.

Rapid Coupler Rotation

- Loosen the knob of the rapid coupler.
- Now, adjust the position of the boom arm in any direction at your convenience.

Feature: The ball-swivel mechanism provides a smooth, quiet, and stable range of motion ($360^\circ \times 220^\circ$), allowing you to position the Boom Arm precisely for controlled and centered motion.

- Once the Boom Arm is at the desired position, re-tighten its knob to secure it at place.

220° Range of Centred Motion

360° Range of Centred Motion

Length Adjustment of Boom Arm

- Rotate the top clutch of the Boom Arm and loosen it.
- Then, slide the Boom Arm in a forward/backward direction.
- Re-tighten the clutch to secure the Boom Arm at the desired length.

Effortless Extension up to 37.5 inches

For 35mm & Medium Format Cameras

- Rotate the bottom clutch of the Boom Arm and loosen it.
- Then, slide the Boom Arm in a forward/backward direction.

- Re-tighten the clutch to secure the Boom Arm at the desired length.

Feature: Featuring a 1kg /2.2 lb counterweight at the end, this boom arm ensures stability, especially when dealing with heavier equipment, providing a steady and reliable performance you can trust.

Enhanced Stability

Included Counterweight

Ball Head Mounting

- Pull the locking cap of the Boom Arm's tip backward and insert the Ball Head.

Feature: The boom arm's tip has a locking cap that allows you to quickly attach or detach equipment.

Feature: The ball head at the tip of the Boom Arm supports various thread sizes, including 5/8" for mic mounting.

Converter (5/8-3/4") Mounting

- Now, remove the 5/8" -3/8" converter from the Ball Head.

Feature: It includes converters (5/8 "-3/8' & 5/8 "-1/4") for attaching a range of equipment, ensuring flexibility in your setup.

- Mount the 5/8"- 3/4" converter onto the Ball Head.

Versatile Mounting

Ball head w 5/8"- 3/8" & 5/8"- 1/4" Converter

Converter Rotation

- Loosen the Ball Head knob and set the converter at the desired position.

NOTE: Use Knob to set the position of the Blimp.

- Now, set the converter at the desired position.

- Once the converter is at the desired position, re-tighten the knob securely.

Mic Mounting

- Mount the Mic (**Not Included**) onto the Converter.
- Rotate the mic 360° rotation to tighten it. .

- Mic is securely mounted on the converter.
- Your setup is ready to use.
