

Smart Projector

HY310

Quick Installation Guide

Attention

Please read this manual carefully before use and keep it for future reference.

- 1.The projector is non dustproof or waterproof.
- 2.In order to reduce the risk of fire and electric shock, do not expose the projector to rain and fog.
- 3.Please use the original power adapter. The projector should work under specified rated power supply.
- 4.When projector is working, please do not look directly into the lens, the strong light will flash your eyes and cause slight pain. Children should use the projector under the supervision of adults.
- 5.Do not cover the vents of projector. Heating will reduce the life of projector and cause damage.
- 6.Regularly clean projector vents, or dust may cause cooling malfunctions.
- 7.Do not use the projector in high way, damp, dusty or smoky environment. Oil or chemicals will cause malfunction.
- 8.Please handle with care during daily use.
- 9.Please cut off the power if the projector is out of use for long time.
- 10.Non professionals are forbidden to disassemble the projector for testing and maintenance.

Structure description

This manual is for reference only. It is subject to change without prior notice. Hiseek reserves the right of final interpretation.

Air Remote

Calibration of the flying squirrel micro-drift:

After the remote control is connected to the projector, simultaneously press and hold the "OK" and "HOME" buttons on the remote control for 2 seconds. At this time, the indicator light will stay on. Then place the remote control flat on the desktop. After keeping it still for 5 seconds, the light will go off, and the flying squirrel will be successfully calibrated.

remote controller pairing

After the matching indicator of the remote control, press "Power input" buttons to bring up the matching guide.

Select your Language
