

MC34 User Manual

INTRODUCTION

Stay hands-free and focused on the road with the Dashboard & Windshield Car Mount with Extendable Arm. Designed for ultimate convenience and stability, this mount features a strong suction cup base for secure placement on windshields or dashboards. Its extendable arm offers adjustable length and angle, ensuring an optimal viewing position for navigation, calls, or media streaming.

The 360° rotatable head allows effortless switching between portrait and landscape modes, while its universal design accommodates most smartphones, even with cases. Whether you're commuting or on a road trip, this car mount is the perfect companion for safe, hands-free driving.

Specs & Features

- Works on most Windows & Dashboards
- 360 Rotation
- Extendable Mount Arm
- Universal Phone Compatibility
- Sturdy and Stable

PRODUCT OVERVIEW

HOW TO USE

Preparing the Car Mount

Unbox and Inspect:

Remove all components from the box and check for any damage or missing parts.

Clean the Surface:

Wipe the dashboard or windshield area where you plan to attach the mount with a clean, damp cloth. Ensure the surface is smooth, flat, and free of dust or grease for optimal suction.

Installing on the Windshield or Dashboard

Choose the Location:

Select a position on the windshield or dashboard that provides clear visibility without obstructing your view of the road or vehicle controls.

Attach the Suction Cup:

Remove the protective film from the suction cup if it's new.

Press the suction cup firmly against the chosen surface.

Lock the Suction Cup:

Push or flip the locking lever on the base of the suction cup to secure it in place. Ensure it's tightly attached.

Adjust the Arm:

Extend or retract the arm to your desired length. Use the tilt adjustment to set the phone at the perfect height and angle.

Mounting Your Phone

Open the Phone Cradle:

Press the release button or gently pull apart the arms of the mount to widen the cradle.

Insert Your Phone:

Place your phone onto the padded backrest and between the arms.

Squeeze the arms together until they grip your phone securely.

Adjust Orientation:

Use the 360° rotatable head to switch between portrait and landscape orientations as needed.

Removing Your Phone

Release the Phone:

Press the quick-release button or gently pull apart the arms to loosen the grip.

Lift Your Phone:

Carefully remove your phone from the cradle.

CARE AND SAFETY

Wipe the mount and its components with a soft, damp cloth to remove dust, dirt, or fingerprints.

Avoid using harsh chemicals or abrasive materials that could damage the surface

Keep the silicone pads on the phone cradle clean and free of dirt or grime to prevent scratches or slipping.
