Specification

RF	Frequency	915 MHz
	Metod	Two-way communication
	Distance	1.6KM
Indication	Indicator	Red/Green
	Strobe light	Red/Blue (white on the board)
Power	Power	Battery (default power supply method) or 12 VDC
	Consumption	Quiescent Current: 40uA Battery: Max. 3 V/4A (alerts in volume level 3) 12 VDC: Max. 12 V/1.3A (alerts in volume level 3)
	Low Battery Cut Off	2.45 V
	Voltage Range	Fully charged (new) to 2.45V DC (battery)
	Battery life span	4 CR123A, 3 years in work status(triggered every two weeks and alerting 90 s for each triggering)
Interface	Power switch	Power switch
	Tamper switch	Front and rear tamper-proof
Buzzer	Piezo Decibel	102 db
	Max. Sound Duration	15min (900s)
General	Operation Temperature	-25 °C to 60 °C (-13 °F to 140 °F)
	Operation Humidity	10% to 90%
	Material	PC+ABS
	Dimension (W × H × D)	190 × 200 × 47. 3mm (7.48" ×7.87" × 1.86")
	Weight	606.5g
	Protection Level	IP65

This product and - if applicable - the supplied accessories too are marked with "CE" and comply therefore with the applicable harmonized European standards listed under the RE Directive 2014/53/EU, the EMC Directive 2014/30/EU, the RoHS Directive 2011/65/EU.

2012/15/EL (WEEE directive): Products marked with this symbol cannot be disposed of as unnorther municipal waste in the European Union. For proper recycling, return this product to your local supplier upon the purchase of equivalent new equipment, or dispose of it is designated collection points. For more information see: www.recyclethis.info

2006/66/EC (barry directive): This product contains a battery that cannot be disposed of as unsorted municipal waste in the European Union. See the product documentation for specific battery information. The battery is marked with this symbol, which may include lettering to indicate cardinium (Cd), lead (Pb), or mercury (Hg). For proper recycling, return the battery to your supplier or to a designated collection point. For more information seex-wave-recycles is info

replacement of a battery with an incorrect type that can defeat a safeguard for example, in the case of some tithium battery types);

- disposal of a battery in the rep - and to venue, or mechanically crushing or crusting of a battery, that can result in an exclusion and example of a battery in the case of a battery in the replacement of a battery in the result is an explosion or the leakage of flammable liquid or gas; and

- a battery subjected to extremely low air pressure that my result in an explosion or the leakage of filmmable liquid or gas; and

Keep new and used batteries away from the children.

If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

Risk of explosion if batteri is replaced by an incorrect type. Replacement of a battery with an incorrect type that can defeat a safeguard.

Dispose of used batteries according to the instructions and local regulation.

If the battery compartment does not close securetyly, stop using the product and keep it away from children

Install the battries according to the polarity mark on the battery holder. The opposite polarity may cause device damage.

The additional force snau or equal to the state of the installation, the equipment, including the installation. After the installation, the equipment, including Install the device on the place with nonflammable surface, such as concrete wall. The additional force shall be equal to three times the weight of the equipment but not less than 50N. The equipment and its associated mounting means shall remain secure during the installation. After the installation, the equipment, including any associated mounting plate, shall not be damaged.

FCC Information

Please take attention that changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation explosure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
