COMMITMENT TO YOU

Rough Country Suspension is committed to providing only high quality, competitively priced products. We understand our commitment to excellence is what keeps our customers business. We have also recognized the need to be a complete supplier to the market and have strategically aligned ourselves with some of the premier names like: Mickey Thompson Tires and Wheels, Interco Tires, Allied Wheels, Weld Wheels, Toyo Tires, Firestone Suspension Products, Mile Marker Winches, T-Max Winches, Fox Racing Shox, Amp Research Steps, Hypertech Programmers, Superlift Suspension Products, and Rock Krawler Suspension Products.

If someone encounters a problem installing one of our products, we have an expert technical staff available to help. Our technical staff understands how each of our products work and can answer any question from the simple application questions to a difficult installation problem.

With over 50 years of experience in the industry, we understand the importance of our customers and have the best customer service department in the business. Orders can be placed with us by phone, fax, e-mail, or the internet. 99.7% of our orders ship within 24 hours of receipt. We ship via UPS, Fed-Ex, and LTL and can provide product to most of the continental U.S. within 2-3 working days at very reasonable rates.

PRODUCT USE INFORMATION

All products are designed to fit new condition stock vehicles. Any attempt to use these products on any other vehicle specially listed in the Application Guide will result in difficult installation, possible damage to the vehicle and will void all product warranties. We recommend that all installations be performed by an experienced installer or someone with a good mechanical background. All vehicles that have been modified by the installation of a lift kit have unique handling characteristics. Because of the higher center of gravity and larger tires, lifted vehicles react differently both on road and off road and must be driven accordingly. You should take extreme care to prevent vehicle rollover or loss of control. Avoid all sudden stops, sharp turns, or abrupt maneuvers. Buckle up, reduce your speed, and be safe.

LIMITED LIFETIME WARRANTY

Heckethorn Products, Inc. offers a limited lifetime warranty. We replace any product that has defects in material and workmanship. Complete details on our warranty and use of the warranty can be found on our price sheet.

HOW TO USE THIS APPLICATION GUIDE

1. Determine the vehicle make, model and year.
2. Determine the product (s) to be purchased and find the application part number.
3. Read the notes associated with the application.

For example for a 2WD Ford F150 1998 that you wanted to level. You would look in the table of contents for 2WD Fords, go to the header for 97-00 F150 and determine the part number required as 9268 – 2” Coil Springs used for leveling.

BODY LIFT KIT FOOTNOTES

- Front bumper brackets are included in this kit.
- Does not fit models equipped with automatic transmission.
- Optional front bumper raising kit is required to raise the front bumper (part #BLBKIT2 or #BLBKIT3).
- This kit will fit only vehicles equipped with a 2-piece collapsible steering shaft.
- It may be necessary to drill the front two body bushing sleeves out to 1/2" for new bolt clearance.
- Front and rear bumper brackets are included in this kit.
- Modification to the front frame horns will be required to raise the front bumper using the bumper brackets included.
- Will not fit 2-wheel drive with power steering.
- Will not fit 2-wheel drive with power steering gearbox close to firewall.
- Installation on models equipped with v-8 will require replacement of lower
- Installation on vehicles equipped with 6 cylinders or V-6 will require replacement of lower radiator hose and fan.
- It will be necessary to drill out some of the body bushings to accommodate larger bolts.
- Front bumper brackets will need to be modified for use on 2' kit.
- Will not fit vehicle equipped with diesel engine.
- Steering extension included.
- Vehicles equipped with Vortec V-6 may require modification of the air intake hose.
- 3" kit includes front and rear bumper brackets; 2" kit includes front bumper brackets only.
- Rear bumper can be raised using the stock bumper brackets.
- Installation on vehicles with air-conditioning will require extensive modification to the radiator-mounting flange.
- Manual transmission models will require part #BL3700 Shift Extension.
- Rear bumper brackets are to enhance appearance only; bumper cannot be used for towing.
- Full-size four leaf spring models only!
- 94-99 Dodge ram pickup rear bumper raising kit Part #60023.
- Will not fit models equipped with adjustable pedal package.
- Rear bumper brackets are available and sold separately for this application
- Front and rear bumper brackets are NOT included in this kit
- Front bumper can be raised using stock bumper brackets
- Manual transmission models will require part # BL4700 shift ext.
- Other products also available.
- Will not fit vehicles equipped with gasoline engines.
- S-15 Blazer rear bumper with factory tow hitch can not be raised.
- Requires cutting the lower radiator core support and installing new brackets provided.
