(As Pic1)

2. Pull out the battery cover by using the hand position between the battery cover and the bottom case.

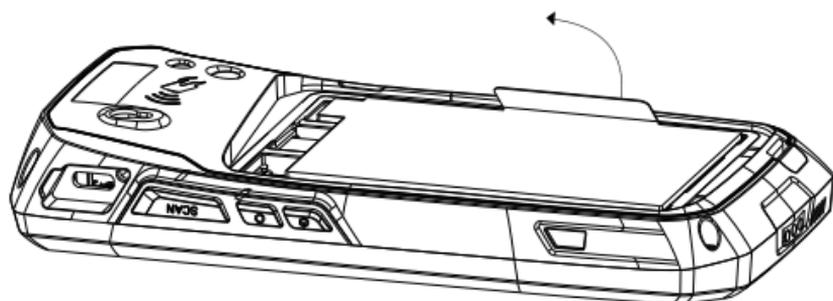

**\* Please remove the positive and negative insulation yellow sticker on the battery before turning on the device.**

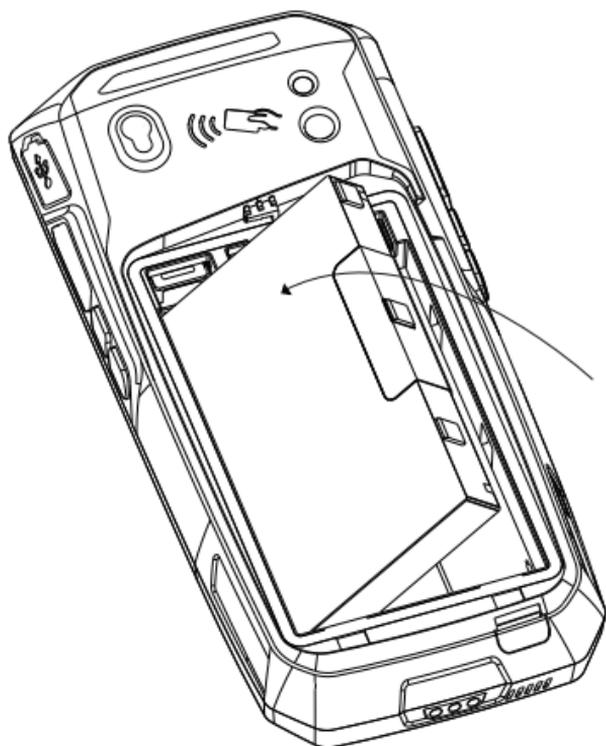

# REMOVING-THE BATTERY

---

1. Lift the strap on the battery:

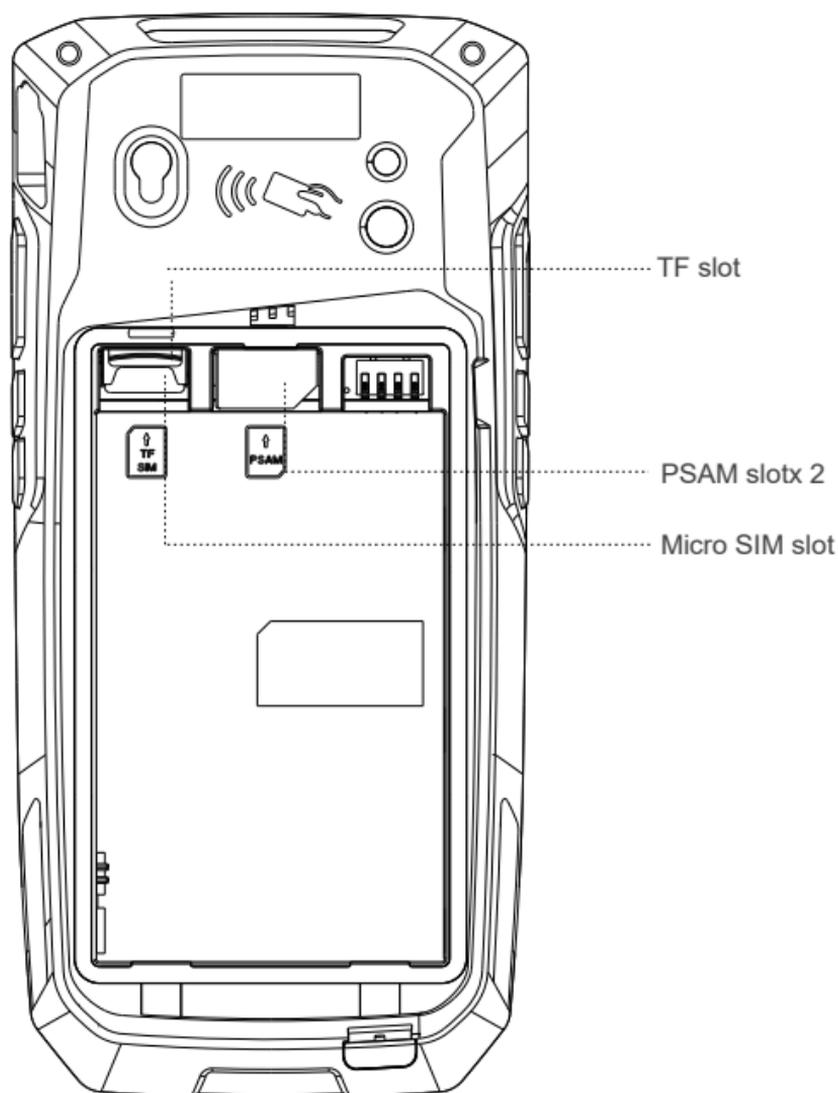

2. Pull the battery belt to take the battery off on 45° obliquely upward.

# INSTALL TF/SIM CARD

1. Insert the SIM card into the corresponding slots as shown in the figure below

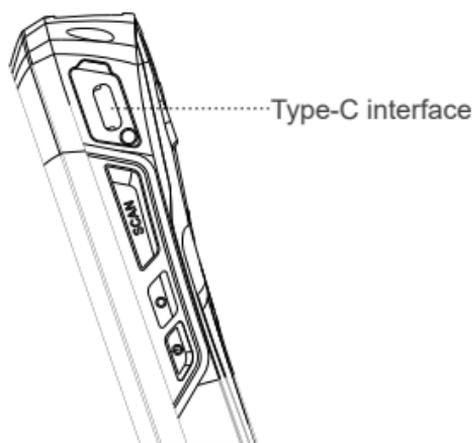

**(Note:** The handheld terminal only supports Micro SIM card; the standard SIM card slot is for PSAM card)

# EQUIPMENT CHARGING

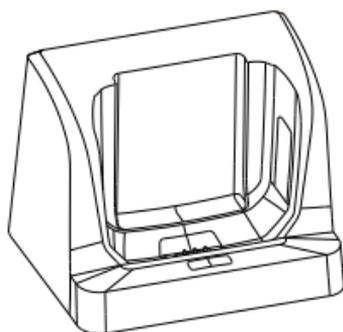

---

## DEVICE CHARGING:

1. Pull out the waterproof USB plug on the right side with the Type-C USB cable that comes with the device. Insert the Type-C USB cable.

2. Use cradle to charge. (Cradle comes separately)

1. Battery is fully charged after 4 hours of charging, and the standby time is over 48 hours.
  2. Cradle can charge 1 battery and 1 terminal simultaneously.
  3. The left indicator light is the battery charging indicator, when the battery is charging, it will appear red. Light will display green once fully charged.
  4. The right light is the power on indicator. Green for when power is on, and indicator is off when power is off.
- ★ To prevent the battery from being over-consumed, please charge the device when the battery power is less than 20%. If the battery displays over-consumption state, please charge the device for 20-30 minutes. This then will display a normal charging status.
