Portable 3-in-1 Foldable MagSafe Fast Wireless Charging Pad

Product Information

This Portable 3-in-1 Foldable MagSafe Fast Wireless Charging Pad is the perfect accessory for Apple users on-the-go.

Its compact design allows for easy portability, making it travel-friendly and convenient to use at any time. The charging pad features a 15W fast wireless charging pad on the left with MagSafe compatibility for the Apple iPhone. On the right, there is a 5W wireless charging pad for the Apple AirPods or any other Qi-wireless charging compatible device.

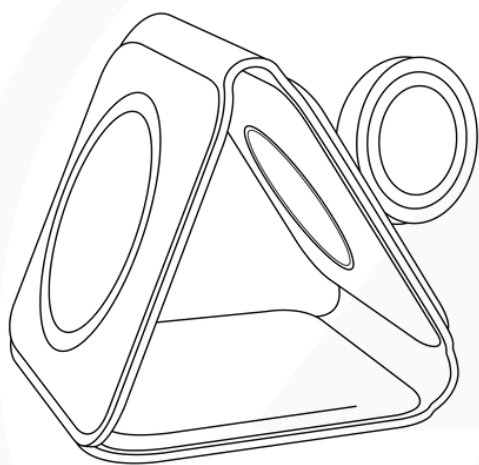

The adjustable Apple Watch charger in the middle makes it easy for users to charge their Apple Watch effortlessly. The LED indicators on the charging pad show activity, letting users know when their devices are charging.

The foldable design of the charging pad makes it easy to store and slip into a pocket or bag. However, it is important to note that for optimum functionality, the wireless charging pad must be used with a PD QC 3.0 power adaptor which is sold separately.

How to Use

1. Unbox the device
2. Use the charging cable provided with the device to connect it to a compatible power adaptor*
3. Place the compatible phone on the main charging pad (A) on the left. This charging pad is MagSafe compatible. It is able to also charge non-MagSafe devices as well.
4. You can use the charging pad (B) on the right to charge any Qi wireless charging compatible device. It has support for wireless charging compatible Apple AirPods.
5. The watch charger (C) in the middle can be used to charge any Qi-wireless charging compatible smart watch including the Apple Watch.
6. The wireless charging pad can be folded flat or folded to a triangle to best fit your needs

*To charge multiple devices you will require a PD + QC 3.0 power adaptor (must be purchased separately)

Troubleshooting

Phone is not charging: If your phone is not charging please check for the following.

- Phone is placed correctly on the charging pad.
- Make sure the wireless charger is correctly connected to the power adaptor.
- If you are using a protective phone case, try removing it and placing the phone directly on the charging pad.
- Make sure there are no magnets in between the phone and the charging pad.

Phone is charging slow: If your phone is charging slow or not charging while wireless earbuds are charging it is usually a sign of lack of power. Please check to see you are using the correct type of power adaptor. For optimum performance you will require a PD + QC 3.0 power adaptor.

Product safety information

- Do not store or use the device in a high temperature or high humid environment.
- Do not store or use near strong magnetic fields.
- Do not temper with the device.
- Keep out of reach of children.

These warnings are important to ensure the safety and longevity of the device. High temperatures and humidity can damage the device's internal components, leading to malfunction or failure. Strong magnetic fields can interfere with the device's electronic signals and cause it to malfunction. Tempering with the device can also cause irreparable damage and void any warranties. Lastly, keeping the device out of reach of children is important to prevent accidental damage or ingestion of small parts that may pose a choking hazard. By following these precautions, you can ensure the safe and optimal use of your device.
