V07W Wireless Headset Hgrade Hutorial	06/07/2021 15:36	MP4 Video	58,414 KB

Step 4:

When the V07W headset is turned on, it will automatically connect to the USB receiver. After the connection is successful, set the microphone as the output device, and the microphone can be used normally.

Note: The upgrade program needs to be run on a Windows PC. After the upgrade, it can be used on both MAC and WIN PC.
