"Yaber is thrilled to announce that the Yaber Smart Entertainment Projector K2s has been recently featured on Digital Trends' list of the "Best Projectors Under \$500", the world's largest independent premium technology publisher. This recognition further solidifies Yaber's position as a leader in high-performance projection technology."

"Yaber, a pioneer in entertainment projectors, has teamed up once again with JBL, a global leader in premium portable audio technology, to make waves in New York's Times Square. Together, they are poised to unveil their latest marvels in entertainment projection at 9:00 AM EST on June 25th. This collaboration seeks to redefine the audiovisual landscape, epitomizing the seamless synergy between Yaber and JBL while sparking fervor among audiences."

A man in a blue and yellow striped polo shirt is sitting on a light-colored sofa, holding a white Yaber projector. He is smiling and looking at the camera. In the background, a man in a yellow hoodie and a woman in a plaid shirt are sitting on the floor, looking at each other. The room is bright and modern, with large windows showing a view of trees and mountains. A small round table with books and a plant is in the foreground.

Yaber × Keith Haring™  
Entertainment Projectors

## Projector T2 Plus

Cinema in Hand, Power on the Go

MSRP:

## Projector for Everyone

Keith Haring, renowned for his vibrant pop art and pioneering street graffiti in New York City, embodies the bold and dynamic qualities we value at Yaber. His colorful and iconic visual style perfectly complements our brand's innovative and youthful spirit. Collaborating with Haring allows us to elevate our brand identity and resonate with a younger, creative audience, leveraging his artistic influence to enhance our appeal.

Looks Better, Sounds Perfect

Yaber Smart Entertainment Projectors

A photograph of a person sitting on the grass, playing an acoustic guitar. They are wearing a blue long-sleeved shirt and dark pants. Next to them is a large blue backpack with yellow straps. A silver tripod is leaning against the backpack, and a small lantern is hanging from it. The scene is outdoors at dusk or dawn, with a tent visible in the background.

# Accessories

### Projector Stand YH-130

# Product Highlights

**Advanced Technology and  
Patent Innovations**

**Eco-friendly Materials and  
Aesthetic Design**

**International Standardized  
Production Process**

The NovaGlow 1st-gen optical technology uses ceramic-coated COB light sources and features a patented Local Dimming technology, significantly enhancing brightness, contrast, and clarity.

The CoolSwift 1st-gen cooling technology features intelligent temperature control and protection, significantly enhancing the projector's lifespan and stability.

# Strategic Partners

When Yaber meets JBL, what we are trying to do is to bring the core pillar of JBL sound to consumers during the use of our projectors. We also collaborate with Dolby Audio to satisfy the users' higher expectations for sound quality.

More than the audio-visual quality, we work with "WWA" to integrate intelligent functions to make it easier and more effective, allowing our consumers to enjoy a hassle-free immersive cinematic experience.

We collaborate with leading chipmakers such as MediaTek and **HiSilicon** to enhance the overall user experience of our products.
