Mercedes-Benz

Welcome

At Mercedes-Benz we appreciate the importance of detail. Over the following pages you'll find model prices and a breakdown of standard and optional equipment, as well as details of the attractive finance offers and benefits that are available to every Mercedes-Benz driver.

We have highlighted some of the best styling features both inside and out, some of the new technology features and some body styling options which all combine to give you a unique driving experience. To experience a full listing of what is available; please speak directly to your local Mercedes-Benz Dealer.

Of course, some things have to be experienced to be truly appreciated, such as the qualities that set a Mercedes-Benz apart, which is why we'd like to invite you for a test drive at your local Mercedes-Benz Dealership. Discover the location and the contact details of your local Mercedes-Benz Dealership at **www.mercedes-benz.ie**

E-Class

Technology

Mercedes-Benz User Experience (MBUX)

Transforming the in-car user experience, thanks to MBUX: Controlled via voice or touch input, the innovative infotainment system can over time even predict personal habits thanks to artificial intelligence.

Multi-gesture touchpad control

Voice control

- Activated by the keywords “Hey Mercedes”, the new intelligent voice control LINGUATRONIC¹ lets you control many of the infotainment functions, including destination input, phone calls or music selection
- MBUX is able to understand different accents and will adjust to you over time
- MBUX even understands indirect commands. Feeling chilly? Just say “I feel cold” and MBUX will adjust the temperature for you

Touch inputs

- Beside voice control you can operate MBUX via touchscreen, the touchpad on the centre console, as well as touch control buttons on the steering wheel
- The touchpad recognises your handwriting should you wish to enter addresses or phone numbers silently

Personalisation

- Turn the new E-Class into your very own Mercedes-Benz by personalising driving modes, radio stations and much more
- Your personal settings can be saved in up to seven different profiles, making your driving experience the best one possible
- Thanks to artificial intelligence, MBUX is able to learn and adapt over time. It will be able to predict your personal habits, such as navigation for frequently-driven routes, or the radio station you like to listen to on your way home from work

Maintenance and service

- Wondering when the next service is due? Or how much further you can drive until you need to stop at a petrol station? Just ask your MBUX – it will tell you the answer

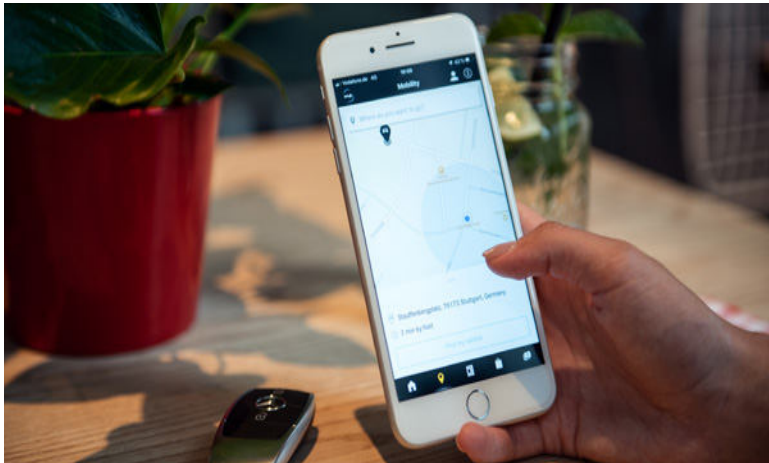

¹LINGUATRONIC off-board functions are currently only available for three years

Mercedes me connect

Stay connected any time, anywhere.

Mercedes me is a range of innovative online services designed to enhance your Mercedes-Benz experience. Accessible via mobile, tablet or PC, Mercedes me lets you enjoy the highest standards of care and support, in a way that integrates seamlessly with your busy lifestyle.

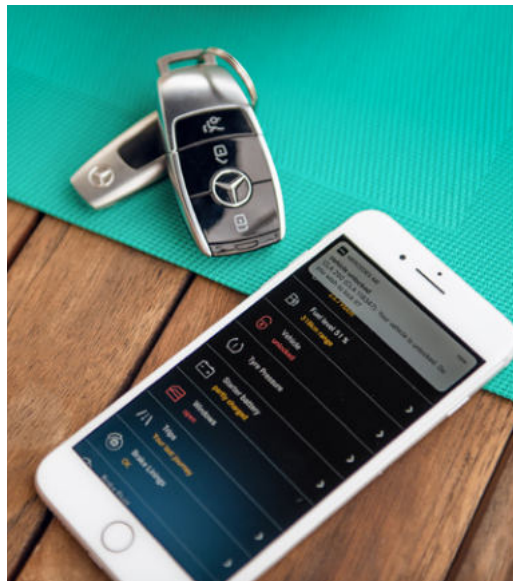

Safety and Service – Mercedes me connect helps to keep you and your car safe
Check your car's oil level, tyre pressure and fuel from your phone so you'll be ready for every journey.

Live Traffic Information, Parked Vehicle Locator and much more with Mercedes me connect
Forgot where you've parked? Parked Vehicle Locator¹ will show you exactly where your car is as long as you're in a 1.5 km radius of where you parked. Real-time traffic data and dynamic route with shorter journey times.

Mercedes me

Comfort – connect to your car anytime, anywhere
Forgot to lock your car? With Remote Car Lock² you will receive a notification on your smartphone to let you know. With one tap, you can lock and unlock your vehicle so you never have to worry.

¹Available on all models with the Vehicle Monitoring package. This option may vary between standard and additional cost dependent on the model

²Part of the Vehicle Status package. This option may vary between standard and additional cost dependent on the model

E-Class

Plug-in Hybrid

Plug-in Hybrid Electric Vehicles (PHEVs) E 300 e and E 300 de.

Plug-in hybrid vehicles enjoy the same functionality of full Hybrid technology, with the added benefit that they can be charged from an external electricity source. With CO₂ emissions of 38 g/km or less, the E 300 e and E 300 de Plug-in Hybrid are an environmentally conscious choice of driving.

E 300 e
1,991 cc, 4-cylinder, 211 hp/155 kW
Electric motor – 122 hp/90 kW

E 300 de
1,950 cc, 4-cylinder, 194 hp/143 kW
Electric motor – 122 hp/90 kW

Standard equipment
Acoustic ambient protection – the tone pitch changes depending on the driving conditions. You can therefore also differentiate whether you are braking or accelerating. Above 30 km/h, the system is basically deactivated since wind and tyre noise tend to dominate at higher speeds
Charging cable – Mode 3 cable (4 metres, 16A) for wallbox and public charging stations at up to 7.4 kW
Charging socket
Charging system – AC charging system rated at 7.4 kW
Pre-entry climate control
Radar-based recuperation
Suspension – comfort suspension

Technical details	
Equivalent All-Electric Range (EADR) ¹	50 – 54 km
AC charging time, 10–100% ²	5 hrs at a domestic socket ⁴ , 1 hr 30 mins at a wallbox
Range power consumption, combined ^{1,4}	15.5–16.7 kWh/ 100 km
Battery type (usable)	lithium-ion (13.5 kWh)
Capacity on-board charger	7.4 kW

¹The indicated values were determined according to the prescribed measurement method – Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Figures shown may include options which are not available in Ireland. For Plug-in Hybrid Electric Vehicle (PHEV) figures determined with the battery fully charged, using a combination of both battery power and fuel. These models require mains electricity for charging ²Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10–100% charge using a wallbox (three-phase) or standard socket (single-phase) ³If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord ⁴The certified electrical consumption is generally determined at maximum AC charging capacity using a Mode 3 cable. It is therefore recommended that vehicles with a HV battery preferably be charged at a wallbox or an AC charging station with a Mode 3 cable in order to achieve shorter charging times and improved charging efficiency

Premium Package From¹ €2,551

KEYLESS-GO including boot lid convenience closing

KEYLESS-GO puts an end to irritating searches for the vehicle key. Because your key is recognised if you carry it in close proximity to the vehicle and in the vehicle interior, all the doors can then be unlocked and locked simply by touching the door handle.

Parking Package with 360° Camera

Exclusive parking service with all-round view: the Parking Assist with PARKTRONIC and 360° camera detects free parking spaces and marked parking spaces as you drive past. After selecting a parking space you can park in it effortlessly thanks to dynamic visualisation and audible feedback.

¹Price and availability subject to vehicle specification
Owing to supply shortages, options for vehicles may be temporarily restricted, resulting in modified vehicle and/or package pricing . Regularly updated information on this issue is available from Mercedes-Benz dealers.

Premium Plus Package From¹ €7,660

In addition to/replacement of Premium Package components

Burmester® 3D Surround Sound

A phenomenal listening experience that can also be seen: with the high-quality design of the speakers and the characteristically designed covers in metal including Burmester® lettering, the vehicle takes on a particularly classy look and enables you to show that you are a music lover and aficionado.

- 13 high-performance speakers precisely tailored to the vehicle interior to ensure well-balanced and dynamic music reproduction
- 9-channel DSP amplifier with a total output power of 590 W (7 x 50 watts and 2 x 120 watts) for maximum sound quality with high volume reserves
- Front bass technology with bass speakers integrated into the bodyshell for vibrant bass reproduction
- Sound optimisation for the front and rear seats
- Vehicle noise compensation (VNC)
- Sound preset: surround function to generate virtual surround sound

Panoramic Sliding Sunroof

Whether open or closed, with the panoramic sliding sunroof, you experience a wonderful feeling of freedom and enjoy a pleasantly bright ambience in the interior. When viewed from the outside, the large sliding sunroof likewise makes a unique visual impression, as it lends lightness and exclusivity to the exterior.

¹Price and availability subject to vehicle specification
Owing to supply shortages, options for vehicles may be temporarily restricted, resulting in modified vehicle and/or package pricing. Regularly updated information on this issue is available from Mercedes-Benz dealers.

Night Package

From¹ €1,041

With the Night Package your sporty exterior looks even more expressive. Numerous elements are retained in black or high-gloss black. Depending on the paint finish, this creates contrasts or flowing transitions. Regardless of how, it's always a clear plus for your individuality.

Design of the Night Package based on the AMG Line exterior:

- AMG front apron with front splitter in high-gloss black
- Petrol/diesel engines: (18-inch) AMG 5-twin-spoke light-alloy wheels, painted in high-gloss black with a high-sheen finish (RSP)
- Plug-in hybrids: (18-inch) AMG 5-twin-spoke light-alloy wheels, painted in high-gloss black with a high-sheen finish (RSK)

Design of the Night Package based on the AVANTGARDE exterior:

- Front bumper with trim in high-gloss black
- Petrol/diesel engines: (18-inch) 5-twin-spoke light-alloy wheels, painted in black with a high-sheen finish (R10)
- All-Terrain: (18-inch) 5-twin-spoke light-alloy wheels, painted in black with a high-sheen finish (R38)

Other package components – for both exterior variants:

- Waistline trim strip, window weatherstrip and trim strip in the rear bumper in high-gloss black
- Exterior mirror housings in high-gloss black, painted in the vehicle colour in conj. with paintwork in obsidian black metallic
- Roof rails in black (for Estate and All-Terrain only)
- Heat-insulating dark-tinted glass from the B-pillar (can be deselected)

Options: MANUFAKTUR hyacinth red metallic, 18-inch 5-twin-spoke light-alloy wheels (R10), Night package

Trailer coupling with ESP® trailer stabilisation

Trailer coupling with ESP® trailer stabilisation (code 550)

From* €1,815

Expand your transport options: with this practical equipment you can hitch up both trailers or caravans and also mount cycle racks. The trailer coupling is ready for use in no time at all – and can be folded in again behind the rear bumper just as quickly when it is no longer needed.

Operating safety is the top priority: to fold out the trailer coupling, you must first unlock it via the control button in the boot. As soon as the button light goes out, the trailer coupling is correctly engaged and is therefore ready for use.

Even when driving you can benefit from a comprehensive safety concept: the ESP® trailer stabilisation is able to intervene automatically in critical situations when driving with a trailer. The associated sensor system detects the trailer independently as soon as the electric plug is connected to your vehicle.

The ESP® stabilisation functions are automatically active from a speed of 65 km/h. When undesired oscillating motions are detected, the Trailer Stability Assist actively dampens these with the aid of alternate brake actuation of each individual wheel. In most cases this is already sufficient to reduce dangerous oscillations. If necessary, the system additionally reduces the speed: for this, the engine torque is reduced and the vehicle is braked via all four wheels.

*Price and availability subject to vehicle specification

¹Figures according to Directive 80/1269/EEC in the currently applicable version ²The indicated values were determined according to the prescribed measurement method – Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Figures shown may include options which are not available in Ireland. For Plug-in Hybrid Electric Vehicle (PHEV) figures determined with the battery fully charged, using a combination of both battery power and fuel. These models require mains electricity for charging ³The certified electrical consumption is generally determined at maximum AC charging capacity using a Mode 3 cable. It is therefore recommended that vehicles with a HV battery preferably be charged at a wallbox or an AC charging station with a Mode 3 cable in order to achieve shorter charging times and improved charging efficiency ⁴Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10–100% charge using a wallbox (three-phase) or standard socket (single-phase) ⁵If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. **Do not use an electric vehicle 3-pin charge cable with an extension cord**

Mercedes me

Welcome to your Mercedes-Benz world.

Imagine if ...you could connect with your Mercedes-Benz? With Mercedes me connect, you can! Mercedes me connect offers you new connectivity services that make driving more comfortable and incorporates your car into your personal lifestyle.

Standard Services

- Maintenance Management
- Telediagnosics
- Breakdown Management
- Accident Recovery
- Mercedes-Benz Emergency Call System

Remote Online Services¹

- Remote Retrieval of Vehicle Status (fuel level, tyre pressure etc.)
- Parked Vehicle Locator
- Vehicle Tracker
- Geofencing
- Door lock / unlock function

¹ Can be used with Remote Online special feature.

Getting connected is easy. Just set up your Mercedes me account and get in touch with your Mercedes-Benz dealer to connect your vehicle to your profile to access your Mercedes me connect services.

Contact your dealer to get connected, or go to www.mercedes.me for more details.
