SafeWaze ToolCuffs are designed and engineered to properly manage a falling object in the weight classification they are specifically rated to. Each item has been tested in accordance with the strict ANSI/ISEA 121-2018 requirements.

Free Fall Impact Force Chart

FREE FALL IMPACT FORCE CHART			
Feet	6	50	100
Impact Force Rating in Pounds			
Pounds			
1	59.3	493.8	987.6
2			
5	296.5	2,469.0	4,938.0
15	889.4	7,407.0	14,814.0
35	2,075.3	17,282.9	34,565.9
80	4,743.6	39,503.9	79,007.7

CHART WARNING: An object dropped at any height should be considered dangerous or even deadly. The purpose of this chart is to emphasize the enormous impact forces generated with an object dropped from height.
