POWER SUPPLY

OPERATING THE UNIT ON AC POWER

Insert one end of the supplied power cord into the 6V DC socket located at the rear of the unit and the other end into the wall outlet.

OPERATING THE UNIT ON BATTERY POWER

1. To run your unit on battery power, the AC power cord must be disconnected from the product.
2. Unplug the AC power cord from the unit and insert 4 size "AA" batteries (not provided) into the compartment.

DAB Radio mode

Press MODE until you are in DAB mode.

The first time you use the Radio or if the station list is empty, your radio will automatically begin to scan for DAB radio stations. A progress bar will be shown, and the number of stations found during the scan will also be displayed.

Changing DAB stations

Press TUNE +/- TUNE - to scroll through the available stations.

When the station that you would like to listen to is displayed, press SELECT/SNOOZE to select.

Manual scan In DAB mode:

Press PLAY/SCAN to begin a search for stations. The display will change to 'Scanning...' A progress bar will be shown, and the number of stations found during the scan will also be displayed.

FM Radio mode

Press MODE to go to FM mode.

Tuning into an FM station

Press and hold TUNE + for 2 seconds to scan up the frequency band.

Press and hold TUNE - for 2 seconds to scan down the frequency band.

Press TUNE +/- TUNE - to fine tune each frequency in 0.05MHz steps.

Storing a DAB and FM station preset

Your Radio can store up to 20 DAB and 20 FM radio stations.

1. Tune the Radio to the station that you wish to preset.
2. Press and hold PRESET for approximately 2 seconds until <Preset Save> is displayed.
3. Use TUNE +/- TUNE - to move to the preset location that you would like to use to store the radio station (1-20).
4. Press SELECT/SNOOZE, the display will confirm Preset X Saved, where 'X' is the number of the preset (1-20).

Note: Any existing station already stored under a preset will be overwritten when you store the new station.

Go to a DAB and FM station preset

1. Press PRESET until <Preset List> is displayed.
 2. Use TUNE +/- TUNE - to move to the station that you would like to listen to (1-20).
 3. Press SELECT/SNOOZE. The radio will tune to that station and begin to play.
- Note:** If no station has been stored under MENU, the radio will revert to the last selected radio station.

Bluetooth mode

Press MODE until you are in Bluetooth mode. It will be ready to pair automatically.

Use your mobile phone to search for a Bluetooth device with the name of "Denver DAB-60".

Please connect it with the password of "0000" (if any).

Time and date

The first time you listen to DAB radio, the time and date of your product will be synchronized automatically by the DAB service.

- You can use TUNE +/- TUNE - to scroll and change the settings for:
- 12/24 hour clock display
- The date format, DD-MM-YYYY or MM-DD-YYYY
- Auto updating of the time from the DAB or FM signal or no auto updating.

Setting the alarm

1. In DAB mode, Press MENU/INFO to enter the menu.
Go to Main menu then <Alarms> and then choose Alarm 1 or 2.
2. Alarm 1 (or 2) info is displayed. Go to <Enable>.
3. Frequency for the alarm. You can choose from Off, Daily, Once, Weekdays or Weekends. Press SELECT/SNOOZE to select.
4. Go to <Time>. Press to select and the hour digits for the alarm will flash. Set the alarm.
5. Scroll to <Mode > and press to select. Scroll to the sound source for the alarm. You can choose from Buzzer, DAB or FM. Press to select.
6. Scroll to <Volume> . Press to select and adjust to the desired alarm volume, press for confirm
7. Scroll to <Save>. Press to confirm.

Note: An alarm symbol in the bottom of the radio display together with the digit "1" or "2" will confirm that an alarm has been set.

Note: If the time is not set or has failed to update from the radio signal, No time set will be displayed when you try to set the alarm. The radio will then prompt you to set the time. An alarm can only be set after the time has been set.

Stop the Alarm

When the alarm sounds, press POWER, 'Alarm off' is displayed.

Note: If you press POWER to stop the alarm, the alarm symbol will remain in the display and the alarm will sound again at the same time the next day, unless it was set for 'Once' only.

Sleep timer

You can set the unit to turn off automatically using the sleep timer.

1. Press and hold MENU/INFO to enter the menu options.
2. Scroll to <Main menu>. Press SELECT/SNOOZE to confirm.
3. Scroll to <Sleep>. Press SELECT/SNOOZE to confirm Use TUNE +/- TUNE - to cycle through the different sleep time options such as Sleep off, 15, 30, 45, 60 and 90 minutes.

Note: To cancel the sleep timer, follow the steps to set the sleep time but stop when 'off' is displayed.

SNOOZE FUNCTION

When the Alarm activates, press SELECT/SNOOZE then the alarm will turn off and will ring again 9 minutes later.

Display backlight brightness

You can adjust the display backlight brightness.

1. Press and hold MENU/INFO to enter the menu.
2. Scroll to <Main menu>. Press SELECT/SNOOZE.
3. Scroll to <Backlight>. Press SELECT/SNOOZE.
4. Use TUNE +/- TUNE - to scroll through the available backlight brightness Options of 0, 1, 2, 3, 4, 5, 6, 7 and 8. Stop when the backlight brightness you would like is displayed and press SELECT/SNOOZE.

Display language

You can change the display language of your radio, there are 4 options available: English, French, German and Italian.

1. Press and hold MENU/INFO to enter the menu options.
2. Scroll to <Main menu>. Press and confirm
3. Scroll to <Language>. Press and confirm
4. Scroll to the language you would like. Press to confirm.

Factory reset

You can reset your radio and restore all the original factory settings.

Note: Factory Reset can be used to clear the station list, the presets and sleep settings. This is useful if you move the radio to a different location as some stations may not be available in the new area.

1. Press and hold MENU/INFO to enter the menu.
2. Scroll to <Main menu> then press SELECT/SNOOZE to confirm
3. Scroll to <Factory reset> then press SELECT/SNOOZE.
4. Scroll to <Yes> and press the SELECT/SNOOZE again.
5. After a few seconds the display will then go into Standby mode. When you next power on your radio from Standby mode, it will begin an automatic scan for DAB stations.

Please notice - All products are subject to change without any notice. We take reservations for errors and omissions in the manual.

ALL RIGHTS, COPYRIGHT DENVER A/S

Electric and electronic equipment contains materials, components and substances that can be hazardous to your health and the environment, if the waste material (discarded electric and electronic equipment) is not handled correctly.

Electric and electronic equipment is marked with the crossed out trash can symbol, seen above. This symbol signifies that electric and electronic equipment should not be disposed of with other household waste, but should be disposed of separately.

All cities have established collection points, where electric and electronic equipment can either be submitted free of charge at recycling stations and other collection sites, or be collected from the households. Additional information is available at the technical department of your city.

Hereby, Denver A/S declares that the radio equipment type DAB-60 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: denver.eu and then click the search ICON on topline of website. Write model number: DAB-60. Now enter product page, and RED directive is found under downloads/other downloads.
