

SKÅDIS

Storage series

Storage throughout the home

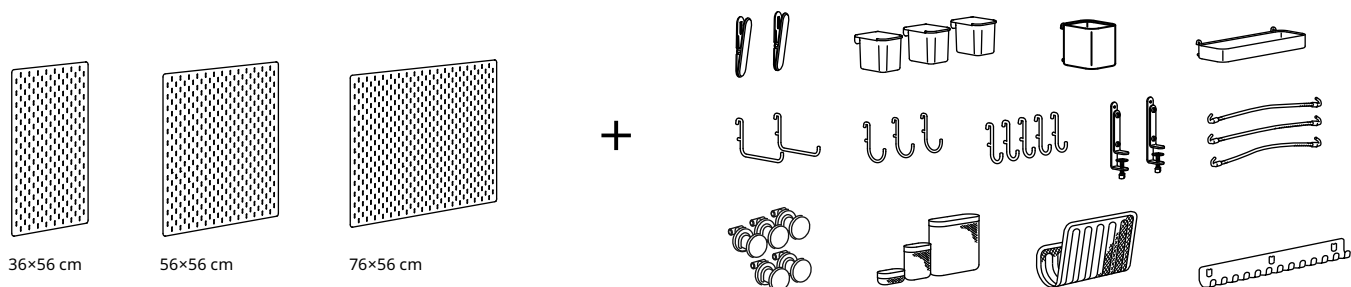

Regardless of where you need storage in the home, and no matter what you plan to store, SKÅDIS storage series can help you. With SKÅDIS pegboard and accessories it is easy to keep your things organized in different areas of the home like the home office, hallway or bathroom. SKÅDIS series also comes to the rescue in the kitchen, keeping utensils and spices close at hand or in the garage, keeping tools in order. With a little imagination, there's no limit to what SKÅDIS can solve.

Requires assembly.

This is a reference guide created to better assist customers when purchasing products. While a high level of accuracy has been sought in its preparation, we cannot guarantee that there are no errors or omissions, nor will we be bound by them. Availability may vary by store. Please see an IKEA co-worker or visit www.IKEA.ca for more information.

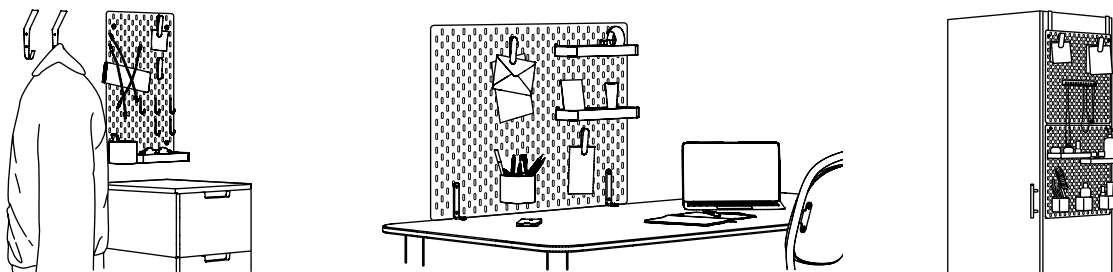

How to choose

You can create your own SKÅDIS combination. First select the size of the pegboard and then complete with the accessories you need. Don't worry if you change your mind — the accessories are just as easy to remove and replace as they are

to attach. When your storage needs change, you can easily add, move or remove accessories so that SKÅDIS always meets your needs.

How to build

Depending on where and how you intend to use your SKÅDIS, you can choose to attach it in three different ways.

1. On the wall.

Use the included wall rail when you buy SKÅDIS pegboard. Remember to buy screws to secure the rail to the wall. Select screws suitable for the wall you plan to attach SKÅDIS to.

2. To a desk or on a shelf.

If you don't want screws in your walls, you can attach SKÅDIS to a desk. You can also attach it on a shelf so that it stands up or hangs down. Regardless what you choose, you can use SKÅDIS connector.

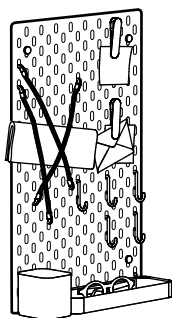

3. On the side of a wardrobe.

You can also hang your SKÅDIS peg board on the side of any wardrobe with a flat top using SKÅDIS connectors for wardrobes. If you would like to hang more than one pegboard, to create a vertical storage solution, add SKÅDIS connector for pegboard to keep the boards together.
