

# trueCABLE | Cable Stripping & Cutting Tool

**1** Designed with a velcro braid comb, Category cable stripper, cable cutter, and coax stripper cassette for RG59 > RG11.

**2** Use to cut copper Ethernet and coaxial cable from Cat3 to RG6QS. NOT for steel conductor coaxial.

**3** Turn knob clockwise to increase Category cable strip depth and counter-clockwise to decrease depth.

**4** To remove and flip around or replace the coaxial strip cassette, pull straight outward. Push in Cassette to replace. BE CAREFUL, strip cassette has very sharp edges!
