

RGB LED Controller Instructions

You can use the switch or remote to control the lighting effects.

Description of switch function

1. Power on/off - Press and hold the power button.
2. Change the mode: Short press the cycle button. (Multiple mode options: Static Red/Static Green/Static Blue/Static White/Multicolor Change/Multicolor Flash/Multicolor Breathing/White Breathing/Red Breathing/Green Breathing/Blue Breathing)
3. Adjust the flashing speed: Short press the power button.

Remote control instructions

MODE/MODE: Switch to dynamic mode from static color, or switch between dynamic modes.

Mode switch +

Next mode

Mode switch -

Previous mode

DEMO: Color cycle display mode. At demo mode, it plays dynamic modes in loop.

SPEED/SPEED: Adjust the flashing speed (Six speed mode)

COLOR/COLOR: Switch color (switch between static color)

BRIGHT/BRIGHT: Adjust the brightness (Six brightness mode)
(Both dynamic and static can be used)

In addition, there are 7 static colors, making up a total of 25 color modes.

NOTE

1. During use, if the switch can work normally, but the remote control cannot, you need to perform the code matching operation.
2. If the light is interfered by other remote controls or cannot be controlled remotely. Please power off and then power on again before performing code matching.
3. How to perform code matching operation: Press and hold the start button on the remote control for 3 seconds within 7 seconds of turning on the power, the light strip flashes 3 times with white light, indicating that the code (remote control) is matched.
4. Code unlocking operation: Within 7 seconds of turning on the power, press and hold the white button on the remote control for 3 seconds. The light strip flashes three times and emits white light, indicating that the code (remote control) is unmatched.
5. Timer mode setting:
 - 1) Short press in sequence: (demo, red, speed+) to indicate adding 1 hour and turning off the lights (adding successfully flashes red light)
 - 2) Short press in sequence: (demo, red, speed -) to release and turn off the lights for 1 hour (green light flashing after successful addition)

Attention to use:

1. Please remove the insulating plastic sheet of the battery before use
2. If the battery fails, please replace it as shown in the picture

FCC ID:2A9H8-LLS121

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition, compliance with exposure requirements.
