5. Aux in Mode

Use the 3.5mm audio cable included to connect the speaker and an audio source (PC, MP3/MP4, mobile phone). Then the speaker will prompt "Aux in" mode and will be played music from the audio source.

Troubleshooting

1. What should I do if the speaker can not pair with the Bluetooth device and play music accordingly?

(1) Please check the specification/ the manual of the Bluetooth device (your mobile or computer), and check if the device can support the A2DP stereo audio transmission. If yes, please turn on the A2DP stereo mode.

(2) Ensure the speaker is under the Bluetooth pairing status, if there are many Bluetooth devices nearby, “G_811” will not easy to be found. Please turn off other Bluetooth devices.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ◆Reorient or relocate the receiving antenna.
- ◆Increase the separation between the equipment and receiver.
- ◆Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ◆Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
