## Wiring diagram

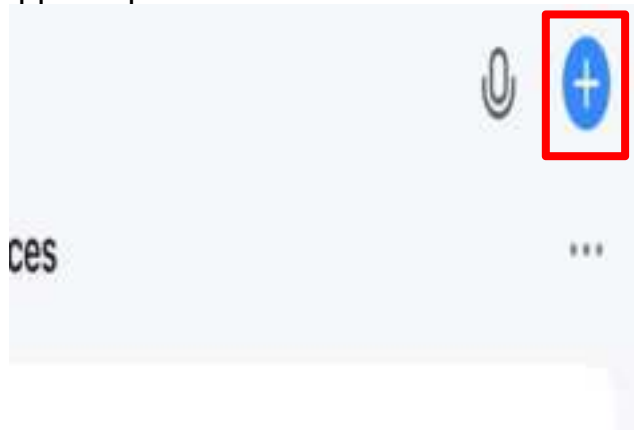

### Step 1

Before you connect the device to the app, power it on & see if there is a blue LED flashing from the WiFi switch module, if there is no blue light, lift the garage module & you'll see a button. Press & hold the button for 5 seconds until the blue light flashes.

### Step 2

Once you've confirmed a flashing blue light, go onto Smart Life or Tuya Smart app & tap the '+' icon to add the device.

### Step 3

Once you've tapped on add devices, the WiFi switch module should automatically be picked up. Tap on the blue add button.

#### Step 4

When you've tapped the blue add button, it will ask you to enter your WiFi network to which the device will be connected. You can skip steps 5 - 8 if you are successful.

#### Step 5

If your mobile device does not support Bluetooth, scroll down to the smart devices Tuya offers. Go to the electrical section & find '**switch (WiFi)**'.

#### Step 6

Confirm that the indicator light is rapidly blinking & proceed to the following page which will pair the device to your Smart Home.

Press and hold the RESET button for 5 seconds until the indicator blinks (subject to the user manual).

The device will pair with your application, the device will be added within 2 min. If failed, check your WiFi details & confirm the blue LED is flashing rapidly.

#### Step 7

Connecting Device  
Keep the network stable

01:56

When the smart device pops up in pairing mode, tap on add, & confirm your WiFi network to which the device will be connected. To learn how to rename the device & switches [\[click here\]](#).

#### Step 8

Enter Wi-Fi Information

Choose Wi-Fi and enter password

Wi-Fi HTECH

Enter password

#### Step 9

Once your device has been added, it is time to test it. Go into your smart app and switch on a switch, then manually switch off your light.
