hyws2014

*Select Wi-fi network, enter password, and push "confirm"
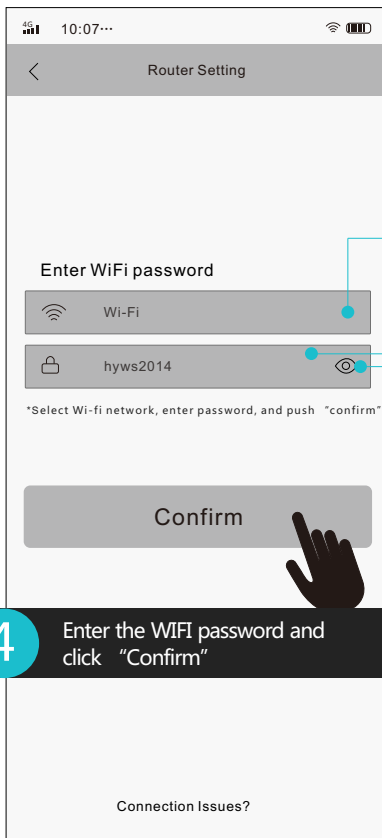

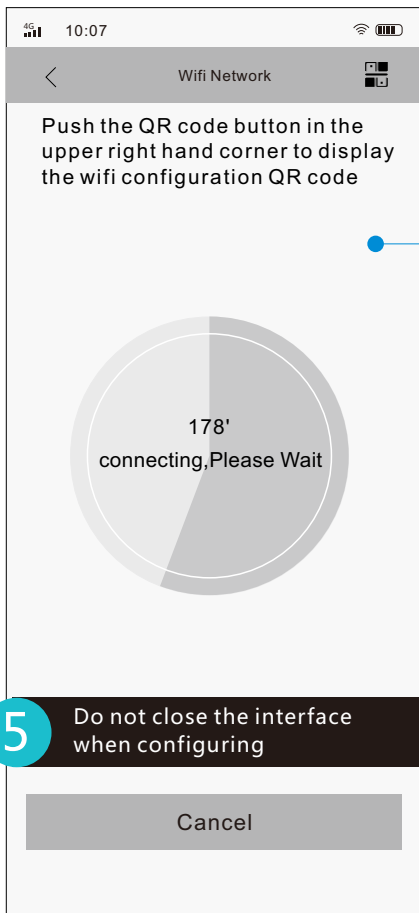

Confirm

4 Enter the WIFI password and click "Confirm"

Connection Issues?

Make sure your device is connected to the same WIFI network that you wish the camera to connect to

Make sure WIFI password is correct

Click "👁" to check whether the WIFI password is visible or not

4G 10:07 📶 🛜 🔋

< Wifi Network ▦

Push the QR code button in the
upper right hand corner to display
the wifi configuration QR code

178'
connecting,Please Wait

**5** Do not close the interface
when configuring

Cancel

Push the QR code button in the upper right hand
corner to generate a configuration code on your
device. Hold this code a few inches from the camera
lens for a few seconds to initiate camera setup. Hold
the QR code in place until you hear 2 prompts. The
first will say "Connecting, please wait", and the
second will say "Connect to router successfully".
HOLD THE QR CODE IN FRONT OF THE LENS UNTIL
YOU HEAR BOTH PROMPTS.

If you do not hear both prompts after 1 minute, press
and hold the reset button on the back of your camera
for 5-10 seconds until you hear a prompt indicating
that the camera is restoring to factory settings. Restart
the learn in process.
