Product Components

Your label design software is packaged with the following components:

- CD-ROM
- Documentation appropriate for the version you purchased

The edition and release number for your software are printed on a label located on the inside cover of the product CD case, as well as on the inside cover of the Quick Start Guide.

Installing TAGGIT™ Pro

To Install the Software

- 1 Download the installation file from the link you were provided.
- 2 Double-click on the self-extracting installer that was downloaded.
- 3 Select the desired language for the software interface screens, then click OK.

The Preparing to Install screen will appear, followed by the welcome screen for the installation wizard.

- 4 Proceed with the installation process by following the on-screen instructions provided in the wizard.

To Activate the Software

- 1 Start Taggit Pro. A welcome screen appears displaying options to activate the software immediately or to try it for an evaluation period.
- 2 Click Activate, then click Next.
- 3 Proceed with the activation process by following the on-screen instructions provided in the wizard.
