

## Deco BE25

### BE5000 Whole Home Mesh WiFi 7 System

- **5 Gbps Dual-Band WiFi** – 4324 Mbps (5 GHz) + 688 Mbps (2.4 GHz).<sup>†</sup>
- **2.5 Gbps Wired Connections** – 2× 2.5 Gbps ports ensure max flexibility and boosted throughput.<sup>‡</sup>
- **Wireless and Wired Combined Backhaul** – Connects a wireless and wired backhaul with each unit simultaneously to improve overall throughput and reduce latency.
- **Multi-Link Operation (MLO)** – Simultaneously send and receive data across different bands and channels to increase throughput, reduce latency, and improve reliability.<sup>‡</sup>
- **Seamless AI-Driven Roaming** – Forms a unified network with built-in AI-Roaming creating the ideal Wi-Fi solution for your home.
- **TP-Link HomeShield** – Provides comprehensive network protection, robust parental controls, and real-time IoT security.\*
- **Universal Compatibility** – Backward compatible with all WiFi generations and works with any internet service provider (ISP) and modem.<sup>®</sup>

# Wi-Fi 7

# Blazing Fast WiFi 7 Speed up to 5 Gbps

The latest 4K-QAM boosts the Wi-Fi speeds up to 5 Gbps<sup>†</sup> — ideal for bandwidth-intensive tasks like cloud gaming and 8K video. Families will enjoy immersive live-streaming with flawless video and clear audio without buffering.

Desktop 4K HDTV Computer

## Ultra-Fast 2.5 Gbps Wired Performance

Perfect for bandwidth-intensive tasks like cloud gaming, VR entertainment, and 8K video streaming. Enjoy immersive live-streaming with flawless video and clear audio, no buffering. Ideal for families and busy households.

2.5× Faster  
than Gigabit Ports

## The Ultimate Backhaul: Stronger and More Flexible

Through our self-developed technology, Deco BE25 is able to connect wireless and wired backhaul with each unit simultaneously. What's more, with the latest WiFi 7 MLO technology, the system's wireless and wired combined backhaul aggregation flow rate is increased. This way, it greatly improves overall throughput and reduces latency, delivering broader coverage with more stable and reliable connections.

## Smart Security for Smart Living

HomeShield is a built-in service, it provides a series of services for you to protect all your devices comprehensively with various features at home or on-the-go. With HomeShield, safer internet experiences bring more happiness to your smart living.

### Network Protection

Simply configure your gateway and achieve whole home network security. HomeShield examines your network by scanning and identifying potential risks, stopping them in their tracks before they harm your network.\*

### Parental Controls

Parental Controls protect your kids, while helping them maintain healthy digital habits. Parents can set app blocking, web filtering, YouTube restrictions, SafeSearch, and online time limits to keep kids safe while they're having fun online.\*

### Maintain Protection Away from Home

Devices remain secure everywhere with devices security app. And through KidShield, parents can monitor their kids' locations. This way, kids stay digitally protected even on the go.\*

## VPN Clients and Server Supported

Allow devices in your home network to access remote VPN servers without needing to install VPN software on every device. You can create different VPN connection types, including OpenVPN, PPTP, L2TP/IPSec VPN. Besides, Deco can run both the VPN and ordinary internet connections at the same time, delivering security and flexibility.

# Private IoT Network for More Security

Set up a separate WiFi for IoT devices and overlay HomeShield and advanced WPA3 encryption\*\* to better protect the security of your home network and IoT devices

## Seamless AI-Driven Mesh

### Uninterrupted Streaming when Moving Between Rooms

Deco Mesh forms a unified network with a single network name. With built-in AI-Roaming technology, it creates the ideal WiFi solution with its advanced algorithms and self-learning. Walk through your home and enjoy seamless streaming at the fastest possible speeds.†

Seamless Roaming with  
One WiFi Name

Sophisticated Algorithms

Seamless AI-Driven Mesh

Customized WiFi

## AI-Roaming Greatly Improves Your Overall WiFi Performance

### Comparison of Actual Network Speeds

# Simple. Easy. Yet Powerful.

Setup and manage your network anytime and anywhere on the friendly TP-Link Deco app. In just three easy steps your entire home can be blanketed in strong and reliable WiFi.

- 1 **CONNECT**  
to a modem and power on both.
- 2 **DOWNLOAD**  
and launch the Deco app.
- 3 **CONFIGURE**  
by following the in-app instructions.

## Easy Management

Manage your WiFi at home or away on the Deco app. See every connected device, prioritize your own, and set up a guest network.

## Voice Control

Use an Amazon Alexa or Google Assistant-enabled device to control Deco BE25 with just your voice.

## All Decos Work Together

Deco BE25 is compatible with every other Deco model to form a Mesh network. Expand Mesh WiFi coverage anytime by adding more Decos.
