A pro with 60 years of experience.

The best development in kitchen machines from Bosch – to meet the highest demands of food preparation.

60 years of quality, precision and reliability.

When our engineers combine all of their experience in one kitchen machine, many details add up to create the essence of Bosch kitchen machine technology – the new MaxiMUM from Bosch:

- The most powerful motor on the market: 1600 watts
- Smart dough sensor for ideal dough processing suitable for heavy bread doughs or light sponge mixtures
- Improved 3D PlanetaryMixing System
- Wide range of accessories that caters to every requirement

Alongside these features, the high-quality full metal housing and choice of three premium colour variants are sure to impress any of your customers who are connoisseurs of fine dining or lovers of design.

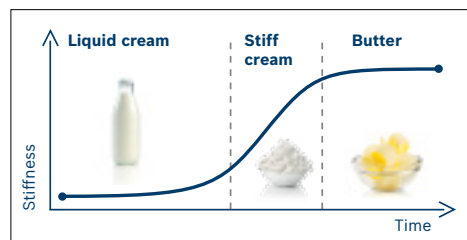

We put everything into achieving perfect results.

The new MaxiMUM with its unique SensorControl feature represents the best of Bosch's kitchen machine development expertise. For maximum demands when preparing food.

Culinary treat – perfect right down to the cream topping.

The new premium kitchen machine from Bosch combines the essence of 60 years of experience with a unique new way to make perfect cream and whipped egg whites. SensorControl automatically identifies the optimum degree of stiffness for cream and egg whites, and stops when the optimal result has been achieved.

As stiff cream turns into butter after a very short time, the SensorControl aids the user in precise application, delivering perfect results everytime.

World Novelty: SensorControl.

Whips cream or egg white to perfection at the touch of a button.

1600 watts

The most powerful motor on the market

Guarantees durability as well as fast, perfect results thanks to extremely large power reserves

EasyArm lift

Allows the mixer arm to be lifted at the touch of a button

Sensor Control*

Automatically identifies optimum degree of stiffness for cream and egg whites

Smart dough sensor

Ensures constant mixing speeds and fast results – even when preparing heavy doughs or using large quantities.

Automatic cable retraction

Allows the cable to be stowed away quickly and conveniently

Easy fill

Makes food preparation more convenient:

- Mixer stops at the back when filling, ensuring the ingredients enter the bowl instead of falling onto the mixing tool.
- Large, easy-to-fill funnel.

Three-dimensional mixing system

3D PlanetaryMixing

Perfectly mixed ingredients. Thank to mixing motion in three directions at once.

Easy pour

For simple pouring of creams and easy removal of doughs:

- Comfortable handles and a convenient spout on the bowl.

Extra-large: 5.4L

One of the largest bowls on the market

Guarantees durability as well as fast, perfect results thanks to extremely large power reserves

The MultiTalent for every gourmet moment.

The MultiTalent food processor makes light work of anything. Preparing your meals has never been easier.

The **MultiTalent** stays true to its name, a versatile crafter that can slice, shred, whisk, and mix amongst other skills. A true master that delivers with the finesse, this is one sculptor that delivers regardless of its medium.

Versatile and multi-functional

With over 50 functions to choose from, the MultiTalent is equipped with multiple attachments that provides endless options for food preparation.

More volume

The MultiTalent has a large bowl with a capacity of 3.9L. Even substantial amounts can be handled in one go without a problem.

Precise cutting performance

The innovative Supercut blade with a serrated edge and large cutting surface glides through any food like a chef's knife with practically no resistance, even through soft ingredients.

Unrivalled power

The motor, which has up to 1250 watts of power, can be adjusted to any speed. This means that the MultiTalent can take on high volumes and manage difficult foods without a problem.
