WARNING: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

This product utilizes a Class 1 laser to read Compact Discs. This Laser Compact Disc Player is equipped with safety switches to avoid exposure when the CD door is open and the safety interlocks are defeated. Invisible laser radiation is present when the CD Player's lid is open and the system's interlock has failed or been defeated. It is very important that you avoid direct exposure to the laser beam at all times. Please do not attempt to defeat or bypass the safety switches.

IMPORTANT SAFETY INSTRUCTIONS

1. Read these Instructions.
2. Keep these Instructions.
3. Heed all Warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with a dry cloth.
7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding - type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. When the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11. Only use attachments/accessories specified by the manufacturer.
12. Use only with a cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13. Unplug this apparatus during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

FCC Warnings

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

- 2 Adjust the connected television to the proper input setting.
- 3 Video from a docked iPhone/iPod can now be played through the bar speaker to the connected television.

MOUNTING TO A WALL

Important Notes

We recommend having this bar speaker professionally mounted.

The included spacers should be used at your discretion to extend the face of the bar speaker farther from the wall. These are typically used when mounting the bar speaker under a television, and the face of the bar speaker needs to be flush with the face of the television.

Required Tools

- Manual or Power Screwdriver
- Stud Finder
- Pencil
- Tape Measure
- Level

Included Hardware

- (2) Wall Mount Brackets
- (4) Long Screws
- (4) Short Screws
- (2) 1/4" Spacers
- (2) 1/2" Spacers
- (2) 3/4" Spacers

Getting Started

- 1 Use the **Tape Measure** to decide how high you'd like to hang the bar speaker on the wall.

The bar speaker must be hung within 6 feet of an AC power outlet for the attached AC power cable to reach.

- 2 Use the **Stud Finder** to locate 2 parallel wooden studs to screw the mounting brackets into.
- 3 Mark the wall at the center of the studs using the **pencil**.
- 4 Line the **level** up on both of your marks to make sure they are level. If they're not, adjust the marks as needed to make them level.
- 5 After you've double checked your markings, **drill** through the top hole on both mounting brackets directly into the marks you've made on the wall.
- 6 If you are using the brackets only and no spacers, use the included short screws. If you are using any of the spacers or combination of the spacers, use the long screws.
- 7 Use the **Level** to level each of the hanging brackets, then drill the second screw into the bottom hole on both mounting brackets.
- 8 Slide the bar speaker onto the mounting brackets, and make sure there is a firm and stable connection before letting go of the bar speaker.
- 9 Finally, use the **Level** to confirm that the bar speaker is level.
