vtech®

Congratulations

on purchasing your new VTech product. Before using this telephone, please read Important safety instructions.

This manual has all the feature operations and troubleshooting necessary to install and operate your new VTech telephone. Please review this manual thoroughly to ensure proper installation and operation of this innovative and feature rich VTech product.

Important safety instructions

When using your telephone equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following:

1. Read and understand all instructions.
2. Follow all warnings and instructions marked on the product.
3. Unplug this product from the wall outlet before cleaning. Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning.
4. Do not use this product near water (for example, near a bath tub, kitchen sink, swimming pool).
5. Do not expose the telephone to direct sunlight or extreme cold environment. Do not put the telephone close to heating sources such as radiators, cookers, etc.
6. Do not overload wall outlets and extension cords as this can result in the risk of fire or electric shock.
7. Unplug this product from the wall outlet and refer servicing to VTech/distributor under the following conditions:
   - When the power supply cord or plug is damaged or frayed.
   - If the product does not operate normally by following the operating instructions.
   - If the product has been dropped and the cabinet has been damaged.
   - If the product exhibits a distinct change in performance.
8. Avoid using a telephone (other than a cordless type) during an electrical storm. There may be a remote risk of electric shock from lightning.
9. Do not use the telephone to report a gas leak in the vicinity of the leak.
10. Use only the supplied NiMH (Nickel Metal Hydride) batteries! The operation periods for the handsets are only applicable with the default battery capacities.
11. The use of other battery types or non-rechargeable batteries/primary cells can be dangerous. These may cause interference and/or unit damages. The manufacturer will not be held liable for damage arising from such non-compliance.
12. Do not use third party charging bays. The batteries may be damaged.
13. Please note the correct polarity while inserting the batteries.
14. Battery should not be exposed to excessive heat such as bright sunshine or fire and immersed in water.
15. The batteries cannot be subjected to high or low extreme temperature and low air pressure at high altitude during use, storage or transportation. Disposal of batteries into fire or a hot oven, or mechanically crushing or cutting or the batteries can result in an explosion. Leaving the batteries in an extremely high temperature surrounding environment can result in an explosion or the leakage of flammable liquid of gas. Batteries subjected to extremely low air pressure may result in an explosion or the leakage of flammable liquid or gas.
16.

    Use only adaptors and batteries listed below; Use only the provided external power supply:
    - VTech Telecommunications Limited. Model: VT05EEU06045 | VT05EUK06045.
    - Jiangxi Jian Aohai Technology Co., Ltd. Model: A318-060045W-EU1 (EU plug) | A318-060045W-UK1 (UK plug).

    Use only the supplied batteries:
    - Yi Yang Corun Battery Co., Ltd. Model: Ni-MH AAA 400mAh 1.2V; GPI. Model: VT40AAAHC 1.2V 400mAh; Highpower. Model: HFR-AAA400 1.2V 400mAh.

Disposal of Old Equipment and Batteries (WEEE)

Only for European Union and countries with recycling systems

These symbols (a, b) on the products, packaging, and/or accompanying documents mean that used electrical and electronic products and batteries must not be mixed with general household waste. For proper treatment, recovery and recycling of old products and batteries, please take them to applicable collection points in accordance with your national legislation.

a)

b)

By disposing of them correctly, you will help to save valuable resources and prevent any potential negative effects on human health and the environment.

For more information about collection and recycling, please contact your local municipality. Penalties may be applicable for incorrect disposal of this waste, in accordance with national legislation.

Product disposal instructions for business users

If you wish to discard electrical and electronic equipment, please contact your dealer or supplier for further information.

Information on Disposal in other countries outside the European Union

These symbols (a, b) are only valid in the European Union. If you wish to discard these items, please contact your local authorities or dealer and ask for the correct method of disposal.

Note for the battery symbol

This symbol (b) might be used in combination with a chemical symbol. In this case it complies with the requirement set by the Directive for the chemical involved.

Recycle your device (WEEE directive 2012/19/EU)

The WEEE logo appears on the product to indicate that this product must not be disposed off or dumped with your other household wastes. You are liable to dispose of all your electronic or electrical waste equipment by relocating over to the specified collection point for recycling of such hazardous waste.

Approval and conformity

This product is intended for use within Europe and the UK. This equipment complies with the essential requirements to EU's Radio Equipment Directive (2014/53/EU) and the UK's Radio Regulations 2017 on radio systems and telecommunication equipment.
VTech Telecommunication Ltd. hereby declares that this telephone LS1350/LS1351 is in compliance with the essential requirements and other relevant provisions of EU's Radio Equipment Directive (2014/53/EU) and the UK's Radio Equipment Regulations 2017.

The declaration of conformity may be viewed at www.vtechphones.eu.

The CE symbol confirms the conformity of the telephone and the above directive. UKCA

Customer Service

Please call our Customer Services Department at 0330 678 1988 or email to service-ukphone@vtechphones.eu and a service representative will be happy to help you.

PRODUCT WARRANTY

ONE YEAR PRODUCT WARRANTY

Thank you for choosing this quality product from VTech.

1. The product detailed above is covered by a one year warranty from the date of purchase, against any defects in materials or workmanship.
2. The product may be returned to the place of purchase.
3. If the product covered by this warranty is damaged due to misuse, modification or unauthoried repair, or because of faulty batteries, battery discharge or incorrect electrical connections, then this warranty becomes void.
4. This warranty is personal to the original purchaser and is not transferable.
5. Breakages to the LCD screen are not covered by the warranty.

VTech Electronics Europe Plc, c/o XPO Logistics, Warehouse 350, Cat & Fiddle Lane, West Hallam, DE7 6HE

THIS WARRANTY IS OFFERED AS AN EXTRA BENEFIT AND DOES NOT AFFECT CONSUMERS' STATUTORY RIGHTS.

This warranty is valid for the UK and Ireland only. For products purchased outside the UK and Ireland, please contact your local distributor or place of purchase.

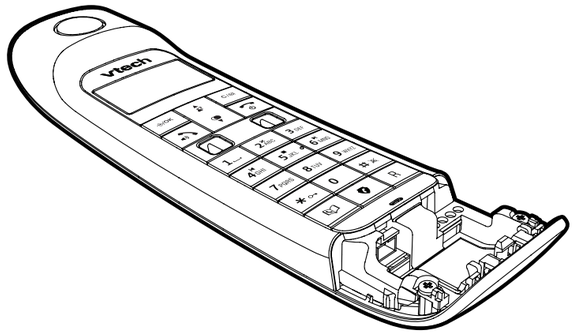
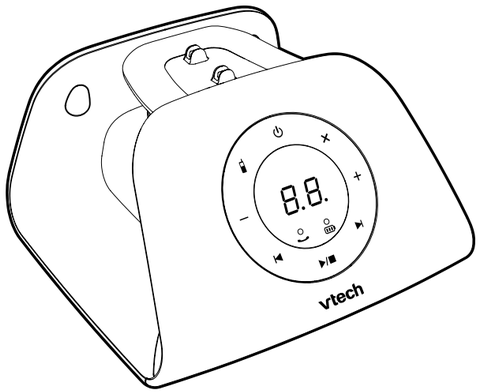
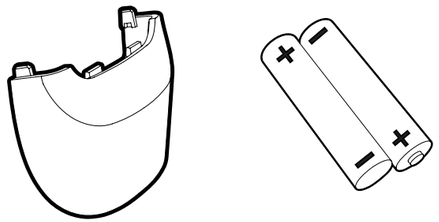
What is in the box

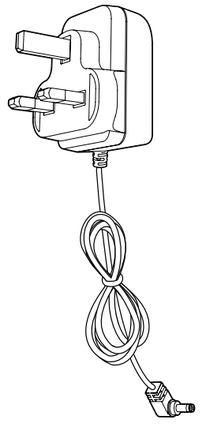
Your telephone package contains the following items. Save your sales receipt and original packaging in case it is necessary to ship your telephone for warranty service.







1 set for LS1350
2 sets for LS1351



1 set for LS1350/LS1351

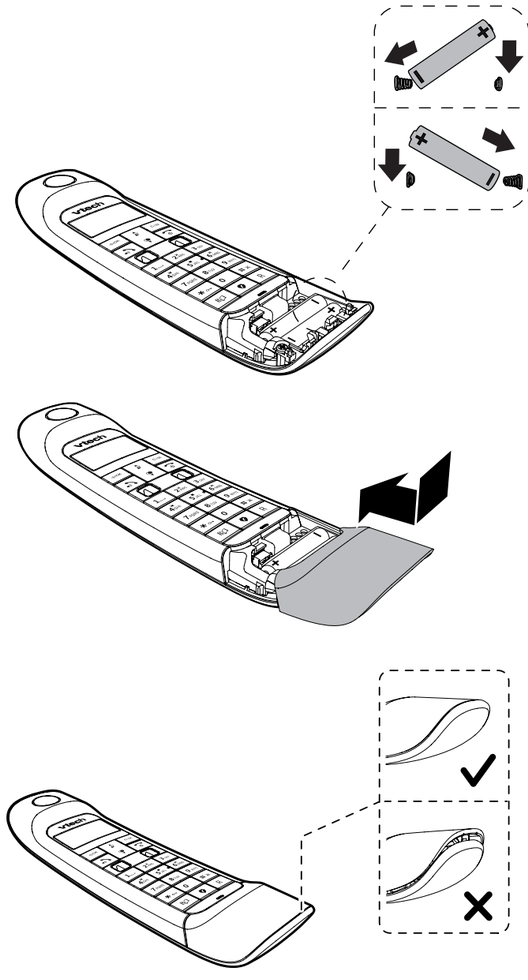
1 set for LS1351

Connect and charge

Install the battery

NOTES

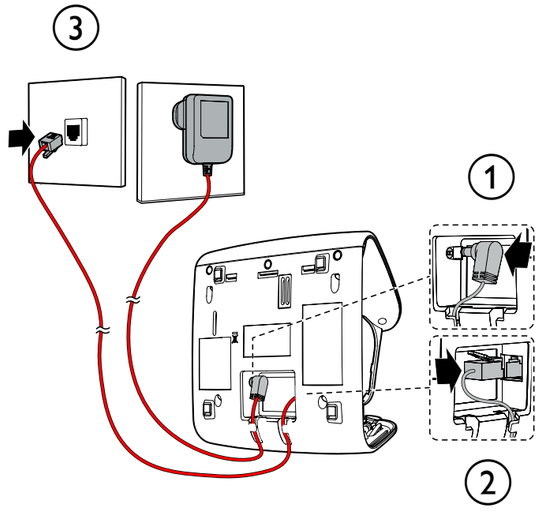
- Use only the battery provided.
- Charge the battery provided with this product only in accordance with the instructions and limitations specified in this manual.
- If the handset will not be used for a long time, disconnect and remove the battery to prevent possible leakage.



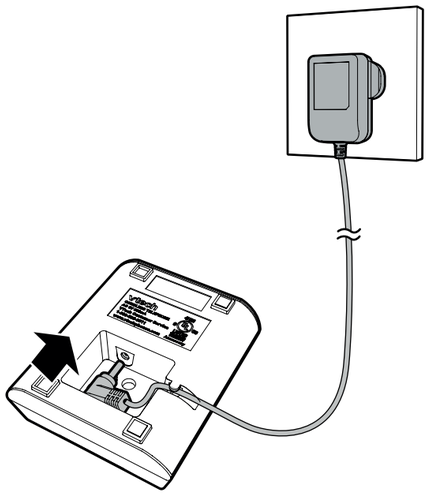
Connect the telephone base

NOTES

- Use only the adapters provided.
- Make sure the electrical outlets are not controlled by wall switches.
- Connect the power adaptor in a vertical or floor mount position only. The adapter's prong is not designed to hold the weight of unit, so do not connect it to any ceiling, under-the-table, or cabinet outlets. Otherwise, the adaptor may not properly connect to the mains.



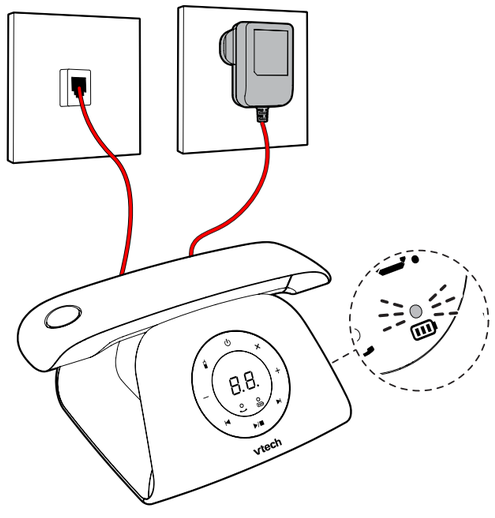
Connect the charger

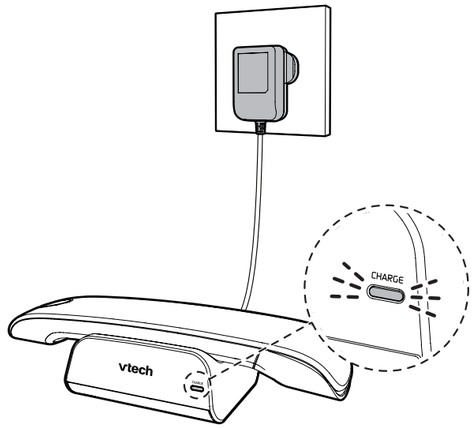


LS1351 charger

Charge the battery

Place the handset in the telephone base to charge.





LS1351 charger

Once you have installed the battery, the handset LCD display indicates the battery status (see the table below).

Battery indicators	Battery status	Action
flashes	Battery has no charge or very little charge. The handset cannot be used.	Charge without interruption (at least 30 minutes).
steadily on	Battery has enough charge to be used for a short time.	Charge without interruption (at least 30 minutes).
flashes	Battery charging in progress.	If full battery charging is reached, the icon will stop animation in cycle even the handset is on charging cradle.
steadily on	Battery is charged.	To keep the battery charged, place it in the telephone base or charger when not in use.

When it is fully charged, you can expect the following performance:

Operation	Operating time
While in handset use (talking*)	13 hours
While not in use (standby**)	8 days

* Operating times vary depending on your actual use and the age of the battery.
** Handset is not charging or in use.

NOTES

- Place the handset in the charger will bypass the set date and time, and voice guide.
- For best performance, keep the handset in the charger when not in use.
- The battery is fully charged after 16hours of continuous charging.
- If you place the handset in the charger without plugging in the battery, the screen displays **NO BATTERY**.

Check the battery level

After you have installed the battery, check the battery level on the handset screen.

- If the battery icon is or flashes, then go to **Set the date and time**.
- If the screen is blank, or flashes, then the battery needs to be charged. Go to **Charge the battery** before you do any setting or operation.

Check for dial tone

Press . If you can hear a dial tone, the installation is successful.

If you do not hear a dial tone

- Make sure the installation procedures described above are properly done.
- It may be a wiring problem. If you have changed your telephone service to digital service from a cable company or a VoIP service provider, the telephone line may need to be rewired to allow all existing telephone jacks to work. Contact your cable/VoIP service provider for more information.

Set date and time

After you install your telephone or power returns following a power outage and battery depletion, the handset will prompt you to set the date and time.

1. Use the dialing keys (0-9) to enter the month (**MM**), date (**DD**) and year (**YY**). Then press ⌯/OK.
2. Use the dialing keys (**0-9**) to enter the hour (**HH**) and minute (**MM**). Then press ▼ or ▲ to choose AM or PM.
3. Press ⌯/OK to save.

NOTE

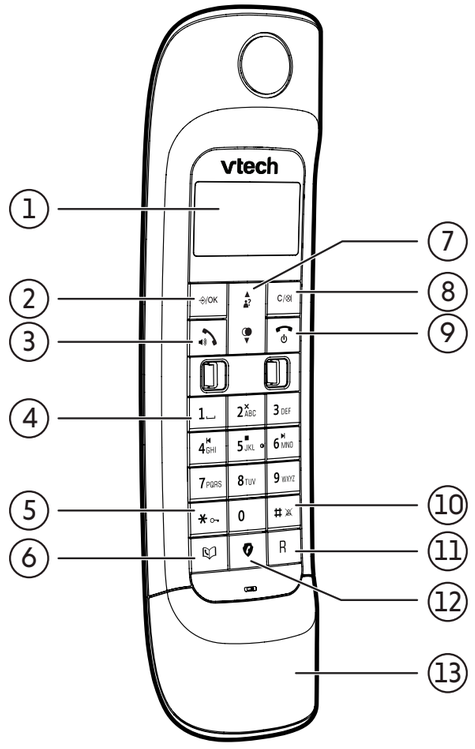
- If you want to skip this, press ⏻.

Operating range

When the handset is out of range, the handset displays **Out of range** or **no pwr at base**.

If there is a call while the handset is out of range, it may not ring, or if it does ring, the call may not connect well when you press 📞. Move closer to the telephone base, and then press 📞 to answer the call. If the handset moves out of range during a telephone conversation, there may be interference. To improve reception, move closer to the telephone base.

Handset Overview



1	**LCD display**	
2	⌯/OK	• Press to display the menu. • Once in the menu, press to select an item or save an entry or setting.
3	📞	• Press to make or answer a call using the handset. • Press to turn on the handset speakerphone, press again to resume normal handset use.

Make, answer or end a call

Predial a call

1. Enter the telephone number.
   - Press C/⊗ to make corrections.
2. Press 📞 to dial.

Answer a call

Using a cordless handset

- Press 📞, or
- Lift the handset to answer if **AUTO ANSWER** is on.

End a call

Using a cordless handset

- Press ⏻ or place the handset in the handset charger.

Turn the handset ringer on/off

- Press and hold # 🔕.

Turn the keypad lock on/off

- Press and hold ✱ 🔑.

Share call

You can use two cordless handsets at a time on an outside call.

To make a 3-way conversation

1. Press ⇆/OK on the handset during a call.
2. Press ▼/▲ to select **INTERCOM**.
3. Press 📞 to answer call on desination handset.
4. Press and hold ✱ 🔑 on the initiating handset.
   - **CONFERENCE** displays.

Adjust listening volume

To adjust the listening volume on a cordless handset

- During a call, press ▼/▲.

NOTES

- The handset and speakerphone volume settings are independent.
- When the volume reaches the minimum or maximum setting, you hear two beeps.

Call waiting

When you subscribe to call waiting service with your telephone service provider, you hear an alert tone if there is an incoming call while you are on another call.

- Press R to put the current call on hold and take the new call.
- Press R at any time to switch back and forth between calls.

If you also subscribe to caller ID service, it will let you see the name and telephone number of the caller during call waiting.

It may be necessary to change your telephone service to use this feature. Contact your telephone service provider if:

- You have both caller ID and call waiting, but as separate service (you may need to combine these service);
- You have only caller ID service, or only call waiting service; or
- You do not subscribe to caller ID or call waiting services.

There are fees for caller ID services. In addition, services may not be available in all areas.

Redial list

Review a redial list entry

1. Press ▼ to enter the redial list.
2. Press ▼/▲ repeatedly to browse until the desired entry displays.

NOTE

- You hear a double beep when you reach the beginning or end of the redial list.

Store a redial number into the phonebook

1. Press ▼ to enter the redial list.
2. Press ▼/▲ repeatedly to browse until the desired entry displays.
3. Press ⇨/OK and then press ▼/▲ to select **ADD TO PB**.
4. Press ⇨/OK to enter name.
5. Press ⇨/OK to enter number.
6. Press ⇨/OK and then press ▼/▲ to select **MELODY 1** to **MELODY 10**.
7. Press ⇨/OK to confirm.

Redial a call from list

Using a cordless handset

1. Press ▼ to enter the redial list.
2. Press ▼/▲ repeatedly to browse until the desired entry displays.
3. Press 📞 to dial.

NOTE

- If there is no number in the list, the display shows **EMPTY**.

Delete a redial list entry

1. Press ▼ to enter the redial list.
2. Press ▼/▲ repeatedly to browse until the desired entry displays.
3. Press ⇨/OK, and then press ▼/▲ to select **DELETE**.
4. Press ⇨/OK twice to confirm.

Delete all redial entries

1. Press ▼ to enter the redial list.
2. Press ▼/▲ repeatedly to browse until the desired entry displays.
3. Press ⇨/OK, and then press ▼/▲ to select **DELETE ALL**.
4. Press ⇨/OK twice to confirm.

Find handset

This feature helps you find all system handsets.

CAUTIONS

- Do not press and hold 📟 for more than four seconds. It may lead to handset deregistration.
- If the handset displays **To register HS...** and **...see manual**, refer to **Frequent asked questions** to register the handset back to the telephone base.

To start paging

Press 📟 on the telephone base.

- All idle handsets ring and display **PAGING**.

NOTE

- Paging tone continues on the other handset.

To end paging

- Press 📟 again on the telephone base;
- Press 📞, C/⊗, ⏻ on the handset; **or**
- Place the handset in the handset base / charger.

NOTE

- Paging tone stops when paging stops.

Use the phone menu

1. Press ⇳/OK when the phone is not in use.
2. Press ▼/▲ until the screen displays the desired feature menu.
3. Press ⇳/OK to select and enter the menu.

- To return to the previous menu, press C/⊗ on the phone.
- To return to idle mode, press and hold C/⊗ on the phone.

Phonebook

The phonebook can store up to 100 entries, and these entries are shared with the Call block list. Each entry may consist of a telephone number up to 24 digits, and a name up to 12 characters.

Add a phonebook entry

1. Press ⇳/OK, and then press ▼/▲ to choose **PHONEBOOK**. Press ⇳/OK to confirm.
   - **ALL CONTACTS** displays. Press ⇳/OK to select.
   - If there is no entry in the list, the display shows **EMPTY**.
2. Press ⇳/OK.
   - **ADD** displays.
3. Press ⇳/OK to add entry.
   - **NAME** displays. Press ⇳/OK to select.
4. Enter the name of the phonebook entry.
   - Press ⇳/OK to confirm.
   - Press C/⊗ to delete.
   - **NUMBER** displays.
5. Press ⇳/OK, and then enter the telephone number of the entry.
   - Press ⇳/OK to confirm.
   - Press C/⊗ to delete.
   - **MELODY 1** displays. Press ▼/▲ to select your preferred ringtone from **MELODY 1** to **MELODY 10**.
6. Press ⇳/OK to confirm the entry.
   - Press C/⊗ to delete.

Review the phonebook entries

Entries are sorted alphabetically.

1. Press 📖 when the cordless handset is not in use.
   - The screen displays the first entry in the phonebook.
2. Press ▼/▲ to browse through the phonebook, or use the dialing keys to start a name search.

-OR-

1. Press ⇳/OK when the phone is not in use.
2. Press ▼/▲ to choose **PHONEBOOK**, and then press ⇳/OK to select.
   - **ALL CONTACTS** displays. Press ⇳/OK to select.
   - The screen displays the first entry in the phonebook.
   - Press ▼/▲ to choose browse through the phonebook.

NOTES

- If the telephone number in the phonebook exceeds 12 digits, ▶ appears on the display instead of ⮌. Press ▼ to select ▶ to show the remaining numbers.
- You hear a double beep when you reach the beginning or end of the directory.

Check number of phonebook entry used

1. Press 📖 when the cordless handset is not in use.
2. Press ⇳/OK and then ▼/▲ to choose **PB STATUS**.
3. Press ⇳/OK again to select.

-OR-

1. Press ⇳/OK when the phone is not in use.
2. Press ▼/▲ to choose **PHONEBOOK**, and then press ⇳/OK to select.
   - **ALL CONTACTS** displays.
3. Press ⇳/OK and then ▼/▲ to choose **PB STATUS**.
4. Press ⇳/OK again to select.
   - e.g. **09/30 USED** displays.

Dial a phonebook entry

1. Search for the desired entry in the phonebook (see **Review the phonebook entries**).
2. Press to dial.

Edit a phonebook entry

1. Search for the desired entry in the phonebook (see **Review the phonebook entries**).
2. When the desired entry displays, press /OK to select.
   - **ADD** displays.
3. Press ▼/▲ to select **EDIT**, and then press /OK to select.
   - Press C/⊗ to delete the name and number.
   - Re-enter new name and number and the ringer melody.
   - Press /OK to save.
   - You hear a confirmation tone.

Delete a phonebook entry/ all entries

1. Search for the desired entry in the phonebook (see **Review the phonebook entries**).
2. When the desired entry displays, press /OK to select.
   - **ADD** displays.
3. Press ▼/▲ to select **DELETE**, and then press /OK to select and confirm.
   - The entry is deleted, and you hear a confirmation tone.

NOTE

- If you want to delete all phonebook entries, press ▼/▲ to select **DELETE ALL** instead of **DELETE**.

   - You hear a confirmation tone and the screen displays the next entry.

Retrieve voicemail

When you received a voicemail, the handset displays **New voicemail** and/or **مص**.

To retrieve, you typically dial an access number provided by your telephone service provider, and then enter a security code. Contact your telephone service provider for instructions on how to configure the voicemail settings and listen to messages.

NOTE

- After you have listened to all new voicemail messages, the indicators on the screen turn off automatically.

Answering system

Message playback

If you have new messages, the telephone plays only the new messages (oldest first). If there are no new messages, the telephone plays back all messages (oldest first).
When playback begins, you hear the total number of messages followed by the date and time of the message. After the last message, the telephone announces, *"End of messages."*

NOTE

- Make sure you **Set date and time** correctly.

1. Press ⊕/OK when the phone is not in use.
2. Press ▼/▲ to scroll to **ANS. MACHINE**, and then press ⊕/OK to select.
3. Press ▼/▲ to scroll to **MSG PLAYBACK**, and press ⊕/OK to select.
   - If there is no message, the the display shows **TAM EMPTY** and returns to previous menu option
   - If there is a message, the displays shows the date and time (10/21 11-05A), i.e. on October 21st and at 11:05 am.
   - Press ⊕/OK to control the playback.

The first received message will play first, while the new voice message is indicated by a ★ icon. Once the message is played, it will be saved automatically and the ★ icon will disappear.
You can adjust the volume by ▼/▲.

Control the playback

Using the handset:

1. Press ⊕/OK when the phone is not in use.
2. Press ▼/▲ to scroll to **ANS. MACHINE**, and then press ⊕/OK to select.

   - Press C/⊗ to select ⮌ and return to previous menu.

Register a handset

When your handset is deregistered from the telephone base, follow the steps below to register it back to the telephone base.

1. Remove the handset from the telephone base.
2. Press ⊕/OK when the phone is not in use.
3. Press ▼/▲ to choose **REGISTRATION**, and then press ⊕/OK to select. There are 4 bases to choose from- optional for supporting multiple bases.
   - **BASE 1** ✕ (by default)
   - **BASE 2**
   - **BASE 3**
   - **BASE 4**
4. Press ▼/▲ to choose the base to register. Then, press ⊕/OK to confirm.
   - **PIN? - - - -** displays; **- - - -** cursor flashes.
5. Enter the 4-digit system PIN, and press ⊕/OK. (Default: **0000**)

   Press and hold 📱 at the telephone base for about five seconds until IN USE light turns on.
   - **PLEASE WAIT** displays.
   - **REGISTER!** displays if the handset did not find and register to the base sucessfully.
   - If handset is registered to the base sucessfully, the base will assign next available handset number to the handset automatically.
   - You hear a beep when the registration process completes.
   - The registration process takes about 60 seconds complete.

NOTE

- If your handset is new, make sure you charge it before attempting registration.

Reset phone settings

You can reset your phone to the default settings. After reset, all settings and entries (except phonebook, call list, and redial list) will be deleted.

1. Press ⊕/OK when the phone is not in use.
2. Press ▼/▲ to choose **DEFAULT**, and then press ⊕/OK to select.
   - **PIN? - - - -** displays; **- - - -** cursor flashes.
3. Enter the 4-digit system PIN, and press ⊕/OK. (Default: **0000**)
4. Press ⊕/OK to confirm.

Answering system and settings

Set your built-in answering system

The answering system can record and store up to 99 messages. Each message can be up to three minutes in length. The total storage capacity for the outgoing message, messages and memos is approximately 15 minutes. The actual recording time depends on individual message characteristics.

Your answering system allows you to set your outgoing message, to save and delete messages, activate call screening, to set number of rings before pick up, and to access remotely.

NOTE

- Make sure you **Set date and time** correctly.

Set the answer mode

The answering system has two types of answer mode. One is **ANS & REC**, and the other one is **ANSWER ONLY**.
ANS & REC is the default setting, and it answers the calls and allows callers to leave a message. **ANSWER ONLY**, on the other hand, only answer the calls but it does not allow callers to leave any messages. It will prompt callers to call back later.

1. Press ⊕/OK when the phone is not in use.
2. Press ▼/▲ to scroll to **ANS. MACHINE**, and then press ⊕/OK to select.
3. Press ▼/▲ to scroll to **TAM SETTINGS**, and press ⊕/OK to select.
4. Press ▼/▲ to scroll to **ANSWER MODE**, and press ⊕/OK to select.
5. Press ▼/▲ to select **ANS & REC** or **ANSWER ONLY**.
6. Press ⊕/OK to confirm.

Select the answering system language

1. Press ⊕/OK when the phone is not in use.
2. Press ▼/▲ to scroll to **ANS. MACHINE**, and then press ⊕/OK to select.
3. Press ▼/▲ to scroll to **TAM SETTINGS**, and press ⊕/OK to select.
4. Press ▼/▲ to scroll to **TAM LANGUAGE**, and press ⊕/OK to select. Select from the following languages:
   - **DEUTSCH**;
   - **FRANCAIS**; and
   - **ENGLISH**.

Default outgoing message

The telephone is preset with a greeting that answers calls with *"Hello, please leave a message after the tone."* You can use this preset outgoing message, or replace it with your own.

Record your own outgoing message

1. Press ⌖/OK when the phone is not in use.
2. Press ▼/▲ to scroll to **ANS. MACHINE**, and then press ⌖/OK to select.
3. Press ▼/▲ to scroll to **TAM SETTINGS**, and press ⌖/OK to select.
4. Press ▼/▲ to scroll to **OGM SETTINGS**, and press ⌖/OK to select.
5. Press ▼/▲ to scroll to **ANS & REC** or **ANSWER ONLY**, and press ⌖/OK to select.
6. Press ▼/▲ to scroll to **RECORD MESS**, and press ⌖/OK to select.
7. During **RECORDING**, select and press ⌖/OK to stop and save the recording and return to previous menu option.
   - Select and press C/⊗| to stop the recording without saving and return to previous menu option.
   - Maximum recording length is 3 minutes.

Play and delete your outgoing message

1. Press ⌖/OK when the phone is not in use.
2. Press ▼/▲ to scroll to **ANS. MACHINE**, and then press ⌖/OK to select.
3. Press ▼/▲ to scroll to **TAM SETTINGS**, and press ⌖/OK to select.
4. Press ▼/▲ to scroll to **OGM SETTINGS**, and press ⌖/OK to select.
5. Press ▼/▲ to scroll to **ANS & REC** or **ANSWER ONLY**, and press ⌖/OK to select.
6. Press ▼/▲ to scroll to **PLAYBACK**, and press ⌖/OK to select.
7. During **PLAYING**, select ⌖/OK to stop the outgoing message playback and return to previous menu option.
   - Press C/⊗| to delete your outgoing message and return to previous menu option.
   - Default outgoing message cannot be deleted.

NOTE

- After you deleted your own recorded outgoing message, the answering system answers calls with the default outgoing message

Options during playback

- Press ▼/▲ on the cordless handset to adjust the listening volume.
- Press 📞 to switch between the speakerphone and handset earpiece.

Set answer delay

Use this feature to set the number of rings for the answering system pick up the incoming call.

1. Press ⌖/OK when the phone is not in use.
2. Press ▼/▲ to scroll to **ANS. MACHINE**, and then press ⌖/OK to select.

   - The PIN must be 4-digit, otherwise, it will not proceed to confirmation page.
8. Re-enter the new PIN in confirm page. Press ⏎/OK to save and confirm.
   - You hear a confirmation tone.

General product care

Taking care of your telephone

Your cordless telephone contains sophisticated electronic parts, so it must be treated with care.

Avoid rough treatment

Place the handset down gently. Save the original packing materials to protect your telephone if you ever need to ship it.

Avoid water

Your telephone can be damaged if it gets wet. Do not use the handset outdoors in the rain, or handle it with wet hands. Do not install the telephone base near a sink, bathtub or shower.

Electrical storms

Electrical storms can sometimes cause power surges harmful to electronic equipment. For your own safety, take caution when using electrical appliances during storms.

Cleaning your telephone

Your telephone has a durable plastic casing that should retain its luster for many years. Clean it only with a dry non-abrasive cloth. Do not use dampened cloth or cleaning solvents of any kind.

Storage

When you are not going to use the telephone for some time, unplug the adapter(s), and remove the rechargeable battery from the handset. Store the telephone base, the handset, the charger(s) and the adapter(s) in a cool and dry place.

Frequently asked questions

Below are the questions most frequently asked about the cordless telephone. If you cannot find the answer to your question, visit our website at www.vtechphones.eu.

My telephone does not work at all.	Make sure the telephone base is installed properly, and battery is installed and charged correctly. For optimum daily performance, return the handset to the telephone base after use.
The display shows No line. I cannot hear the dial tone.	Disconnect the telephone line cord from your telephone and connect it to another telephone. If there is no dial tone on that other telephone either, then the telephone line cord may be defective. Try installing a new telephone line cord.
	If changing the telephone line cord does not help, the wall jack (or the wiring to this wall jack) may be defective. Contact your telephone service provider.
	You may be using a new cable or VoIP service, the existing telephone jacks in your home may no longer work. Contact your service provider for solutions.
I cannot dial out.	Make sure there is a dial tone before dialing. It is normal if the handset takes a second or two to synchronize with the telephone base before producing a dial tone. Wait an extra second before dialing.
	Eliminate any background noise. Mute the handset before dialing, or dial from another room in your home with less background noise.
