TAKE CARE WHEN
REMOVING THE TV

Important Information

CAUTION

RISK OF ELECTRIC SHOCK
DO NOT OPEN

This symbol indicates that the product contains double insulated parts between hazardous main voltage and accessible parts. When repairing, use only factory replacement parts.

CAUTION: Always follow Samsung's maintenance warning. Caution is required to avoid the risk of electric shock, fire and remote control (or battery) damage when disassembling parts inside. Refer servicing to qualified service personnel.

This symbol indicates "dangerous voltage" inside the product that presents a risk of electric shock or personal injury.

This symbol indicates "dangerous voltage" accompanying the product.

WARNING

To reduce the risk of fire or electric shock, do not expose the product to rain or moisture. This product should not be exposed to dripping or splashing. No objects filled with liquids, such as vases, should be placed on the apparatus.

WARNING

The TV is unstable if it is not properly attached to the base or mounted to the wall. Please follow the base or wall mounting instructions provided in the User's Guide to ensure your safety.

Warnings: The television should not be exposed to excessive heat, such as prolonged direct sunlight, open flame, or fire of any kind. Refer to the "Safety Information" tab located on this page for more product safety and proper operating voltage.

Cable TV Installer: This remote is provided to aid your installation to Article 820.45 of the National Electrical Code (Section 54 of the Canadian Electrical Code, Part 1) which provides guidelines for proper grounding and, in particular, specifies that the cable ground should be connected to the grounding system of the building as close to the point of cable entry as practical.

Important: This television is a table model and is designed to sit on a hard, flat surface. Do not place the TV on soft carpeting or on a similar surface as this may cause the vent fans inside located on the bottom of the unit to be blocked and may result in reduced product life-span from overheating. To ensure adequate ventilation for this product, maintain a spacing of one (1) inch from the top and side of the TV receiver and two (2) inches from the rear of the TV receiver and other surfaces. Make sure the TV stand or base you use is of adequate strength to prevent the TV from tipping or falling, tripped over, pushed off, or pulled off. This may cause personal injury and/or damage the TV. Refer to the Important Safety Instructions on the next page.

The Power button  on this TV and your remote control puts the TV into a very low-power standby mode but will not completely turn the power off. In order to completely shut the power off, you will need to disconnect the power cord from the outlet. The main programmable power switch is used to completely turn off the device. If you prefer to completely turn off the device, you should install the TV in a manner that allows you to disconnect the power cord when desired.

Product Information

Keep your serial receipt to obtain warranty parts and service and for proof of purchase. Attach it here and record the serial and model numbers in case you need them. These numbers are located on the product.

Warning: Changing or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Keep the apparatus at least 6 inches away from the human body.

Input	Signal Compatibility
Antenna/Cable	480i, 480p, 720p, 1080i (NTSC, ATSC) and QAM formats
Composite Video	480i
HDMI	480i, 480p, 720p/60Hz, 1080i/60Hz, 1080p/60Hz, 2160p/24/30/60Hz

For the best viewing experience, we have the Energy Guide Label from the TV front panel or TV screen before use.

FCC Information

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential setting. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the distance between this equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This Class B digital equipment complies with FCC Part 15.003.

The device includes models of www.tte.com.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause unexpected operation.

Supplier Name: TTE Technology, Inc. (aka TTE North America)

For additional support, please visit www.ncl.com.my

Step 1 Set up your TV

Ready for the step-by-step? You're only minutes away from TV bliss! **Warning:** To avoid the danger of installation, keep people (including baby) from getting distracted and press the release packaging bag in order to take away, cut edges, or damages.

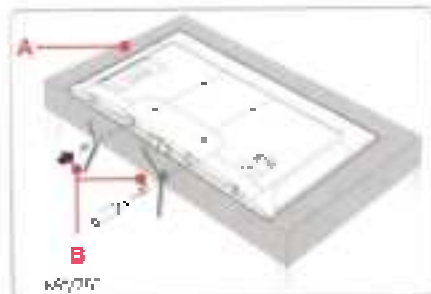

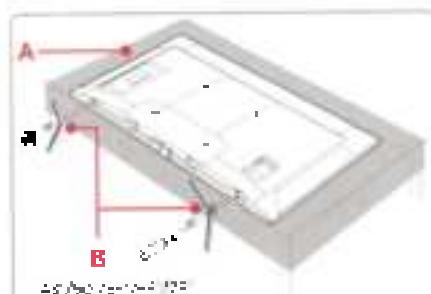

Remove your TV from the box

Be careful, it's heavy!

To use the stand

- A** To prevent damage to the screen, carefully place your TV on a soft, padded surface.
- B** Align the stands with the screw holes located on the TV. Secure the stands to the TV with four (4) screws.

Notes: Make sure the installation direction of the stand is the same as illustrated. Please remove the protective film after installation.

Screws

4x4.5/50/57x17mm 50/55/54x25mm (4) (H=20mm)

Warning (Stability Hazard):

Never place a television set in an unstable location. A television set is heavy, causing serious personal injury or death. Many injuries, particularly to children, can be avoided by following these precautions:

- Using cabinets or shelves are not allowed by the manufacturer of the television set.
- Only using furniture that can safely support the television set.
- Placing the television set is not overhanging the edge of the supporting furniture.
- Not placing the television set on tall furniture (bookshelves, bookshelves or bookcases) without anchoring both the furniture and the television set to a suitable support.
- Not placing the television set on unstable or movable stands that may be moved away from the television set and supporting furniture.
- Educating children about the dangers of climbing on furniture to reach the television set or its controls.
- NEVER place items that might encourage children to climb, such as toys and remote controls, on the top of the television or furniture on which the television is placed.
- ALWAYS make cords and cables connected to your television set they cannot be tripped over, pulled or grabbed.

If your existing television set is being retained and reinstalled, the same considerations as above should be applied.

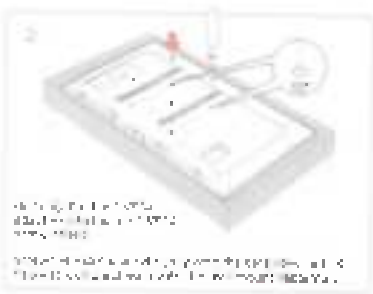

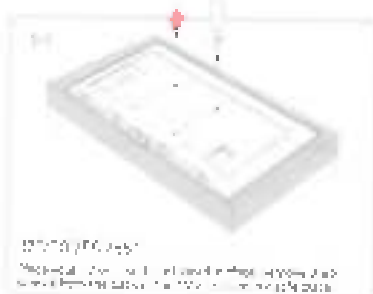

Optional - To mount on a wall

(Wall mount hardware and accessories are not included.)

To mount on a wall

Preparation must be done before mounting your TV on a wall.

Note: Do not place your TV in a location exposed to direct sunlight, heat, fire, or moisture. Exposure will damage the TV.

When mounting your TV to the wall, do not follow these steps:

To mount your TV to the wall, purchase a VESA wall mount			
43" Model	Purchase a VESA 400x200	(2) M5x15mm screws - top row	(2) M5x2mm screws - bottom row
50" Model	Purchase a VESA 300x300	(2) M6x1mm screws - top row	(2) M6x2mm screws - bottom row
55" Model	Purchase a VESA 300x300	(2) M6x30mm screws - top row	(2) M6x15mm screws - bottom row
65" Model	Purchase a VESA 400x400 (4) M6x15mm screws		
76" Model	Purchase a VESA 400x400 (4) M8x10mm screws		

The VESA standard is a universal standard for local and international mounting. For example, 200x indicates the distance between mounting holes. For example, 200mm horizontally and 200mm vertically.

Follow the instructions that come with the wall mount.

Your wall mount is not able to bear more than one time the full weight of your TV without being damaged.

Warnings:

- The product should only be mounted by a professional installer.
- Never install or mount this product to the ceiling with the screen side facing down. Installing or mounting the product to the ceiling or the underside of a structure or surface is hazardous and may result in personal injury and/or property damage.

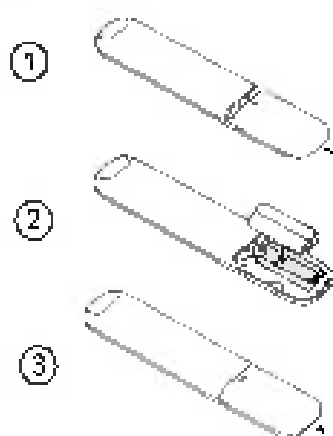

Step 2 Power up

In this step, we'll make sure all systems are a GO!

Connect your power cable to the TV, then plug it into the wall outlet.

Power your TV remote by inserting the included batteries.

If applicable, connect external devices by referencing port label and descriptions on Page 9.

Insert batteries and reconnect on only as instructed in the battery compartment.

Power Tip! Always replace depleted batteries with two same brand-new batteries from the same manufacturer to avoid the danger of overheating.

If your remote doesn't work after using two brand-new and correct battery types, contact customer support for help.

See the Battery section for special information on page 4.

Troubleshooting

Having trouble completing the guided setup? Don't worry, it's usually an easy fix.

Cannot connect to wireless network (WiFi)

- Select the correct wireless network name and verify the password entered correctly.
- Remove the router from objects that interfere with performance (e.g. less-planned baby monitors, etc).
- Restart the router by disconnecting the power for more than 2 minutes and reconnect.

Problems connecting my cable box or antenna through a coax cable

- For best performance, use the HDMI connection if you can also connect.
- Make sure the cable connections to the TV and your device are securely fastened.
- Check name of antenna input.
- Select the channel when there and follow the on-screen instructions to confirm that it works when.

What is the remote code for programming my Universal or Cable box remote control?

- Please visit <http://google.com/occc>

How to update Parental Control password

- Select "Settings" from the home screen.
- Select "System".
- Select "Parental Controls" to view and/or change your parental password.
- You can setup your parental password anytime.
- If you forget your parental password, you can use 0423 to reset.

How do I turn Text-to-Speech (TTS) on or off?

- Select "Settings" from the home screen.
- Select "System".
- Select "Accessibility".
- Select "TalkBack".
- Select "Enable" and check "On" for turn it on or off.
- For more information visit <http://google.com/tts-voice>

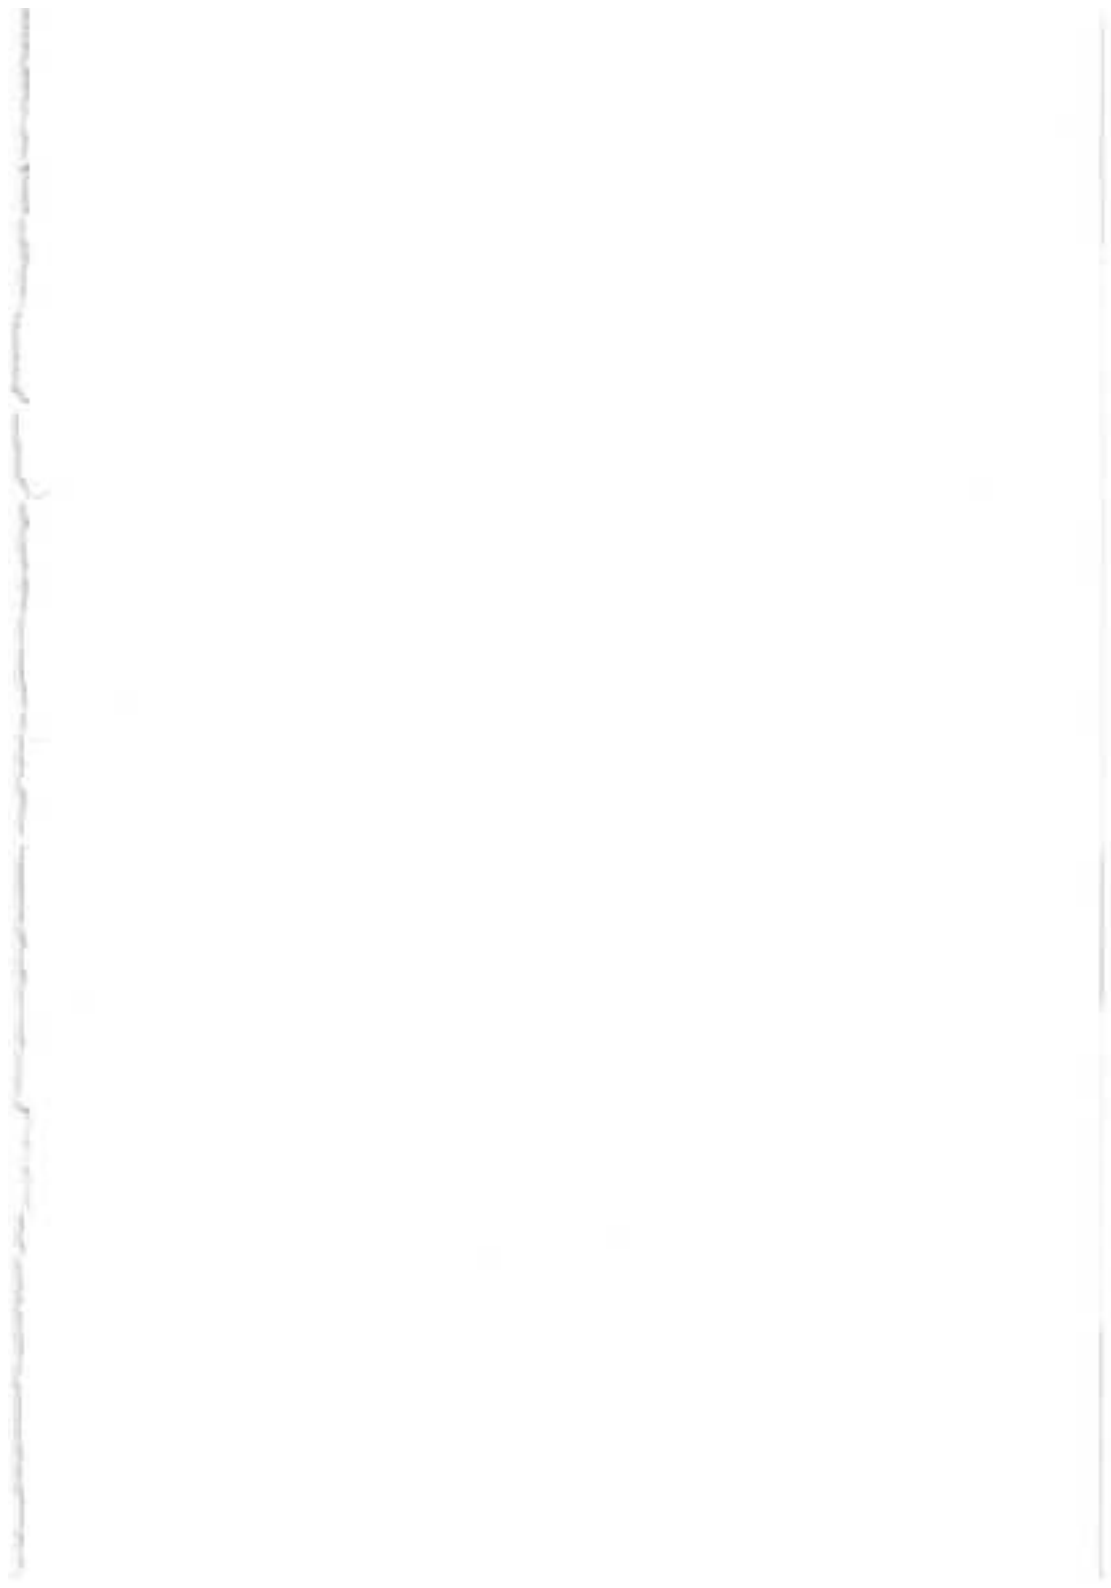

How to use voice control through the remote control?

- In Google TV mode, press and hold the "HOME" and "OK" buttons on your remote at the same time.
- Hold your remote within 3 ft. of your TV during the pairing process.
- Press and hold the "OK" button longer than the Google Assistant icon (it will appear between the 1 and 2 o'clock position) or holding down the Google Assistant button to make a question or voice suggestion.
