# HOW TO PROGRAM YOUR CONTROLLER FOR

# KEY MAP MODE (Android Only)

Ready to Conquer PUBG/BGMI, Free Fire, Genshin, or Mobile Legends?
Follow this Guide to program your EvoFox Deck.

PUBG/BGMI Programming Steps:

1.  Download ShootingPlusV3 App from Google Play Store (or Scan QR Code on the Side).

2.  To Pair the EvoFox Deck over Bluetooth press **KEY MAP** button
    Till the LED 2 starts Blinking Fast.

3.  **Go to Bluetooth Settings** on your phone and connect to **EvoFox Deck**.

4.  **Open the ShootingPlus V3** app and give the permissions as required.

5.  ShootingPlusV3 includes Pre-mapped Controller Presets in the App for various games.
    For eg: Free Fire, Minecraft, Genshin Impact, Mobile Legends, NBA 2K and more.

6.  **Open PUBG/BGMI** App while ShootingPlusV3 is running in the background.
    Navigate to Settings – Customize Buttons – Customize.

7.  Click the ShootingPlusV3 "Icon 🎮" on the Screen to reveal all the Buttons available to map
    according to your in-game controls.

8. Now press **"Select" Button** (Top Area) – More Presets – PUBG Mobile – Download Preset.
This will add all the buttons which are available to map on your Screen.

9. Press the ShootingPlusV3 "Icon 🐾" again to see all the available buttons on your Screen, drag and move keys or press desired Buttons on gamepad to Map Controls according to your preference.

10. Press **Select Button** on Gamepad to view all the keys assigned to the touch points.

11. Press **Start Button** on Gamepad to adjust keys on the touch points.

12. Always remember to press the **"Save" Button** (Top Area) to save the changes you have made.

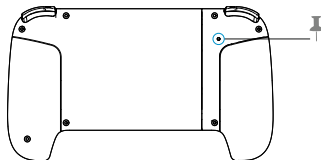

You can program any other games such as **Free Fire** and more by following steps similar to above.

- Select your desired Game in steps 5 and 6.
- Follow Steps 1 to 4 and 7 to 12 for programming any other Game.
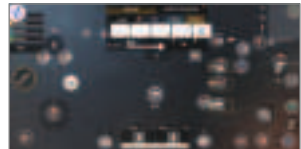

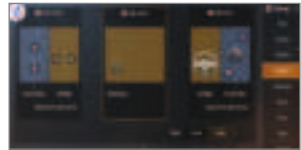

# RESET THE GAMEPAD

In the unlikely event the Gamepad is not responsive, use a pin to press the RESET button located at the back.
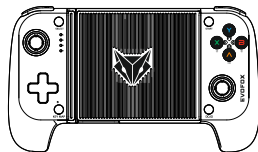

# BACKLIGHT CONTROLS

You can control the backlight for the Analog Joysticks and the Action Buttons.

Press **KEY MAP** + (X) to turn off or switch LED colours of both the Analog Joysticks.

Press **KEY MAP** + (B) to toggle the LED for the Action Buttons.

# TROUBLESHOOTING

**Why is this Gamepad not being detected by my device?**

- Make sure it is charged.
- Make sure it is in the correct pairing mode.
- Make sure it is not connected to any other device.
- You may need to unpair and repair it.

**Why is the Gamepad disconnecting?**

The Gamepads needs to be charged.

**Why is the Gamepad not working in all my games on Android or iOS?**

Ensure the game has support of Gamepads.

**Facing any trouble with the connection?**

The gamepad may require you to unpair and reset it for further use.
