

Small wall light

INSTRUCTIONS

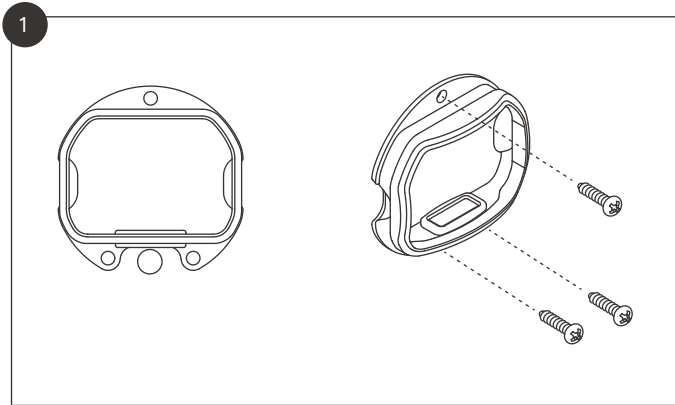

INCLUDED

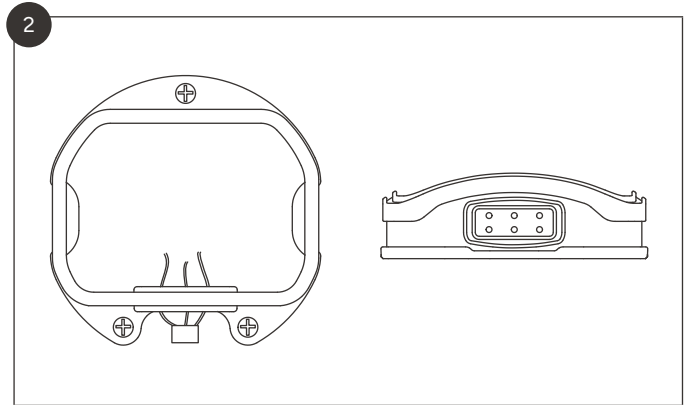

TOOLS YOU'LL NEED

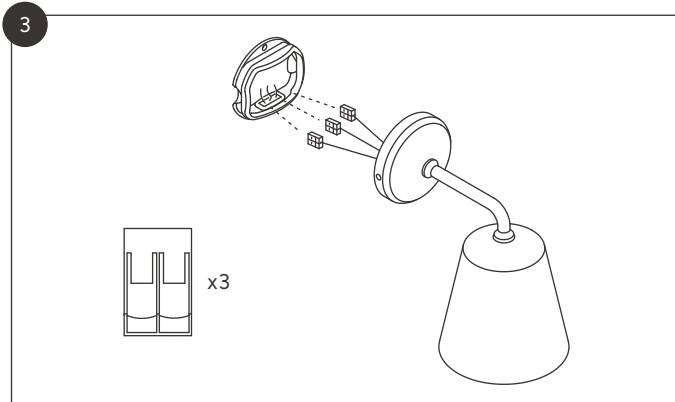

Small wall light instructions

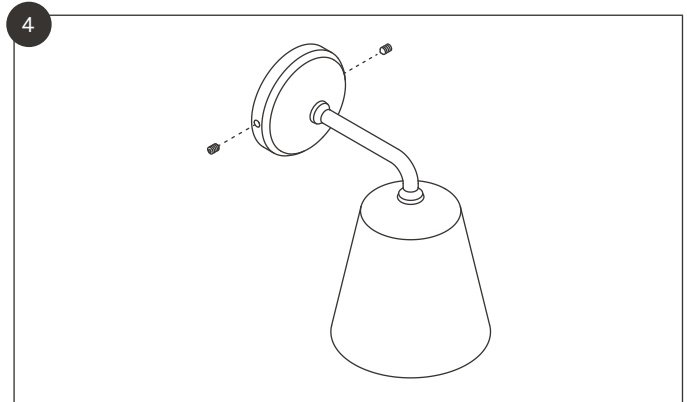

Install the wall light mount. See **page 4** for dimensions.

Push wires through the grommet.

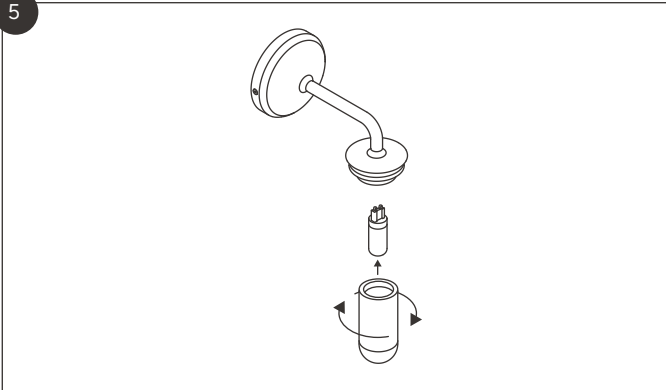

Connect the WAGOs inside the base.

Tighten the grub screws.

Small wall light instructions

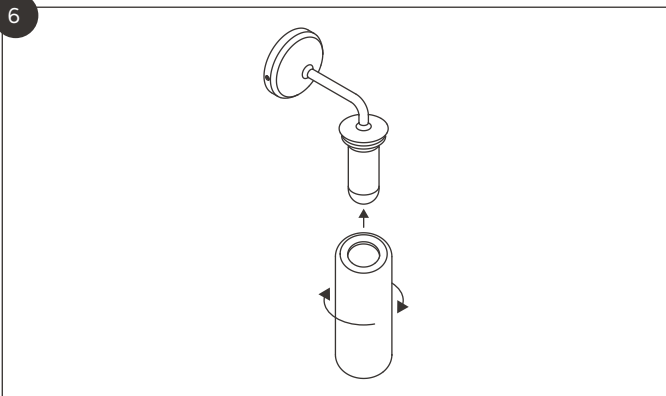

5

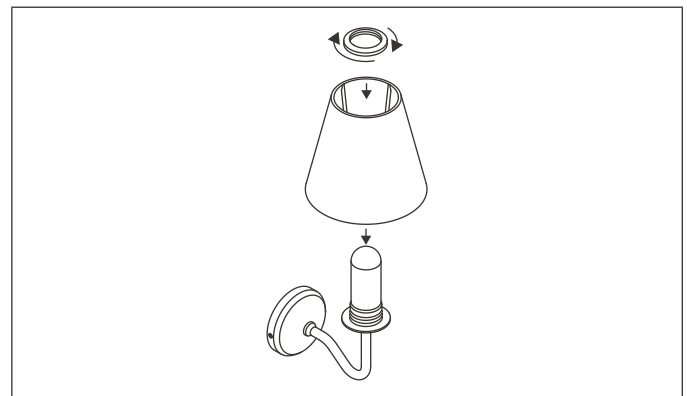

Unscrew the glass cover to add the bulb.

Note: the glass cover protects the bulb in wet environments and is required for the IP rating. If the light is installed in a dry setting, you can remove the glass cover to increase the life expectancy of the bulb.

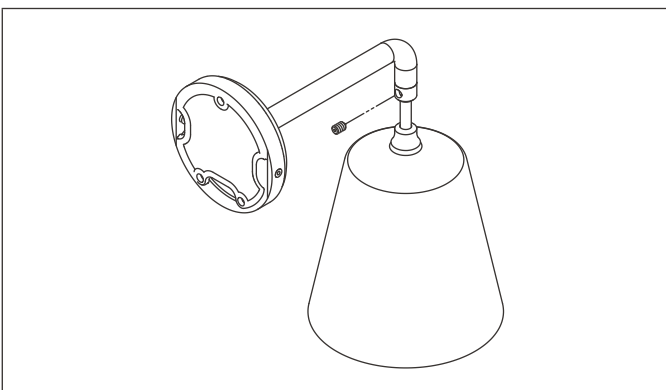

6

Claremont: screw the shade onto the body.

Malvern: use the shade ring to secure the shade.

Richmond (hanging): use the grub screw to adjust the shade height.
