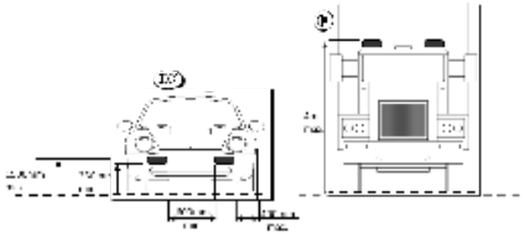
SIDE MOUNTING INFORMATION

LAZER RECOMMENDS: **LOCTITE 222**



EN Lamps with integrated Position light may need to be positioned according to the above sketch. If an additional pair of position lights is not permitted (e.g. in Switzerland, Austria), the position light should be disconnected. The legal regulations in individual countries must be observed.

FR Lors du montage d'un phare de complement avec feu de position intégré, toutes les cotes de montage supplémentaires indiquées dans le croquis ci-dessus doivent être respectées. Si ces spécifications de montage légales ne sont pas respectées, ou si l'utilisation d'une paire supplémentaire de feux de position n'est pas autorisée (Suisse, Autriche), le feu de position ne doit pas être utilisé. Dans ce cas, les cables du feu de position doivent être débranchés. La législation spécifique à chaque pays doit être observée.

DE Bei Anbau eines Zusatzscheinwerfers mit integriertem Positionslicht sind in Deutschland alle in nebenstehender Skizze aufgefuehrten zusaetzlichen Anbaumaße einzuhalten. Solten diese gesetzlichen Anbauvorschriften nicht eingehalten werden, bzw. die Benutzungeines zusaetzlichen Paares Positionsleuchten nicht zulaessig sein (CH, A) darf das Positionslicht nicht betrieben werden. Landesspezifische Gesetzeslage ist zu beachten.

NO Lamper med posisjonslys / parklys må muligens plasseres ifølge tegningen over. NB: i Norge er det kun lov med to parklys totalt.

SE Lampor med integrerat positionsljus rekommenderas att placeras enligt ovanstående skiss. Om det inte är tillåtet med ytterligare ett par positionsljus på fordonet (t.ex. i Schweiz, Österrike), bör positionsljuset kopplas bort. Lagstiftningen ska följas enligt varje enskilt land.

FI Parkkivaloilla varustetut mallit tulee asemoida yllä olevan piirroksen mukaisesti. Mikäli parkkivalot eivät ole maakohtaisesti (mm. Sveitsi, Itävalta) laillisia tieliikenteeseen, ei niitä tule kytkeä käyttöön. Maakohtaisia liikennelain asetuksia tulee aina noudattaa.
