AIRDOPES 280 ANC

Thank you for choosing boAt Airdopes 280 ANC. This manual is your guiding map for navigating the shores of musical bliss. Knowledge of Bluetooth and device connectivity is essential for steering this boAt. So, we strongly recommend that this manual be read thoroughly before use and referred to in times of difficulty.

BEAST™ MODE

- Experience enough gaming with a prioritized audio and music using Airdopes 280 Pro.
- With BEAST™ Mode is activated, these earbuds deliver up to 50 ms low latency which minimizes distracting lag.
- Avoid former matched with impactful audio ensure gaming every time.

Mode for the Gamers - By Gamers, BEAST™ Mode reduces the latency significantly and improves the overall gaming experience.

QUAD-MIC ENX™ TECHNOLOGY

- Our ENX™ technology in the earbud mic cancels background sounds ensuring that only your voice is communicated over calls, devoid of noise.
- The ENX™ technology in Airdopes 280 ANC, isolates and prioritizes your spoken utterances so that your voice is conveyed clearly in all possible environments while ensuring the audio quality for high calls.
- You don't have to activate ENX™ as the Airdopes are equipped with the same and activated by default.

Deliver your voice without interruptions everywhere - traffic, railway stations, airports, workspaces, literally wherever you are!

ANC, AMBIENT, AND NORMAL AUDIO MODES

- Airdopes 280 ANC is integrated with three audio modes featuring different levels of noise control to optimize listening comfort.
- Active noise cancellation (ANC) mode cancels out the external noise up to 32 dB so you can immerse fully in your playlists. Enjoy listening to audio isolated from noise, even in busy areas.
- Ambient mode is for transparency towards the outside surroundings. Keep up with background's conversations without missing a beat of your favorite song.
- You can also turn off noise cancellation when required by activating Normal mode.

IN-EAR DETECTION

- In-ear detection in these earbuds can identify when they are plugged into your ear canal and when they have been removed. So, your Airdopes activate operation only when you need it.
- Airdopes 280 ANC plays music when you insert the earbuds and when removed, the audio pauses immediately only to play automatically when you wear the earbuds again.
- For incoming calls, simply wear the earbuds to accept the call. If you take out the earbuds in the middle of the call, it automatically gets switched to your smartphone.
- In case of ongoing calls on your smartphone, wearing your Airdopes will transfer the call immediately to the earbuds ensuring that your calls are uninterrupted.
- In-ear detection is enabled by default in Airdopes 280 ANC.

CAUTIONARY WARNINGS

- Please do not dismantle the product as it can lead to a fire or electrical breakdown and completely damage the product. Maintenance or servicing of the earbuds must be done only through a qualified service provider/retailer.
- Please do not use any oily/liquid liquid to clean the earbuds.
- Please do not use the earbuds in extremely hot or cold temperatures.
- Any damage to the earbuds that is NOT a manufacturing issue will make the product's warranty null and void.
- Do not use the earbuds when it is unsafe to wear them, such as while driving, crossing the street, or any other activity where full awareness of your surroundings is required.
- To avoid damage to your hearing, make sure that the volume on your music device is at an appropriate level as continuous exposure to noise levels at or above 85 dB can gradually lead to a loss of hearing.

RECOMMENDATION

The earbuds may start at 100% volume level when first switched on. You can adjust the volume to your preferred level using the volume controls on your phone/music device.
