

HOW IT WORKS

VIDEO MEETINGS WITH KONFTEL

All our video kits supports Konftel One Cable Connection, so a single USB cable is all you need to connect the camera, the speakerphone and the room's screen to the collaboration app on your laptop.

WHAT YOU NEED

FIRST TIME

1. Before connecting the orange cable to your laptop, make sure you have the DisplayLink driver installed. Download driver at konftel.com/occ
2. Connect the USB cable and wait until configuration is completed. *(The first time, it might take up to 60 seconds.)*
3. In your collaboration app (for example Microsoft Teams or Zoom), go to settings and select Konftel for both audio and camera.

Konftel is a leading company within collaboration endpoint solutions. Since 1988, our mission has been to help people in businesses around the world to have meetings regardless of distance. Based on our success, we know that remote collaboration is a smooth way to save time, money and at the same time contribute to a more sustainable world.

Crystal clear audio and a sharp video image are essential for efficient meetings, this is why we only focus on cutting-edge technology in our Collaboration Solutions.

Our audio technology OmniSound® is built into all Konftel Conference phones and devices. The products are sold globally under the Konftel brand and our headquarter is based in Sweden.
