Using the receiver to connect the device, short press the BEITONG LOGO(HOME Button) to turn the Controller on.

Power OFF

1. Press and hold the BACK button + B button for about 3 seconds, the Controller will be turned off.

2. When the Controller is connected, without any operation for 10 minutes, the Controller will automatically shut down.
3. When the Controller is not connected, without any operation for 120 seconds, the Controller will automatically shut down.
4. When the power cannot support the normal use of the Controller, it will be powered off if the power is low.

Pairing Clearance Tips: Press RB Button + BACK Button + RS Button + HOME Button in the power off state, pairing information can be actively cleared.

Light Introduction

*The Breathing Light refers to the RGB aperture on the outer edge of the HOME Button(BEITONG).

Under normal connection, the Breathing Light shows white. The state of Breathing Light can be customized through the BEITONG Gamepad Assistant.

| Situation | Light State |
|--------------------------|---|
| Normal Connection | Will stay on |
| Pairing | Multi-color flashing alternately |
| Battery is less than 30% | Flashes quickly |
| Charging | Flashes slowly |
| Full Charge | After the Breathing Light is on for 10 seconds, it will switch to the customize light state or light off. |

Connection Tutorial

1. Connect to Computer

Wireless Connection

Insert the wireless receiver into the USB interface of the computer, and press the BEITONG Logo (HOME Button) to turn Controller on. The connection is completed when the Controller vibrates and the breathing light is on.

Use USB cable to connect the Controller and computer together, and then press the BEITONG Logo (HOME Button) to turn Controller on. The connection is completed when the Controller vibrates and the breathing light is on.

2. Connect to Android TV

Wireless Connection

Insert the wireless receiver into the USB interface of the TV, and press the BEITONG Logo (HOME Button) to turn Controller on. The connection is completed when the Controller vibrates and the breathing light is on.

* For a more stable connection during gaming, it is recommended to use an extension cable to connect the TV and wireless receiver.

Wired Connection

Use USB cable to connect the Controller and TV together, and then press the BEITONG Logo (HOME Button) to turn Controller on. The connection is completed when the Controller vibrates and the breathing light is on.

Software Support

*About the assistant software, it supports personalized function setting/key test/firmware upgrade.

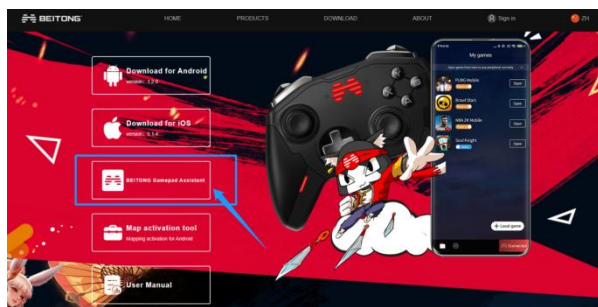

It's recommended to download according to gamer's needs, but do not affect basic use of the controller without downloading.

1. BEITONG Gamepad Assistant for PC

① Download the software "BEITONG Gamepad Assistant" from BEITONG official website:

<https://www.betop-cn.com/en/#/down>

(Note: If you enter the Chinese Official Website, please set the language in the upper right corner to English, and then click the DOWNLOAD enter into the download page.)

② Use USB cable to connect the Controller and computer together

③ Run the software "BEITONG Gamepad Assistant " to set up the Controller function.

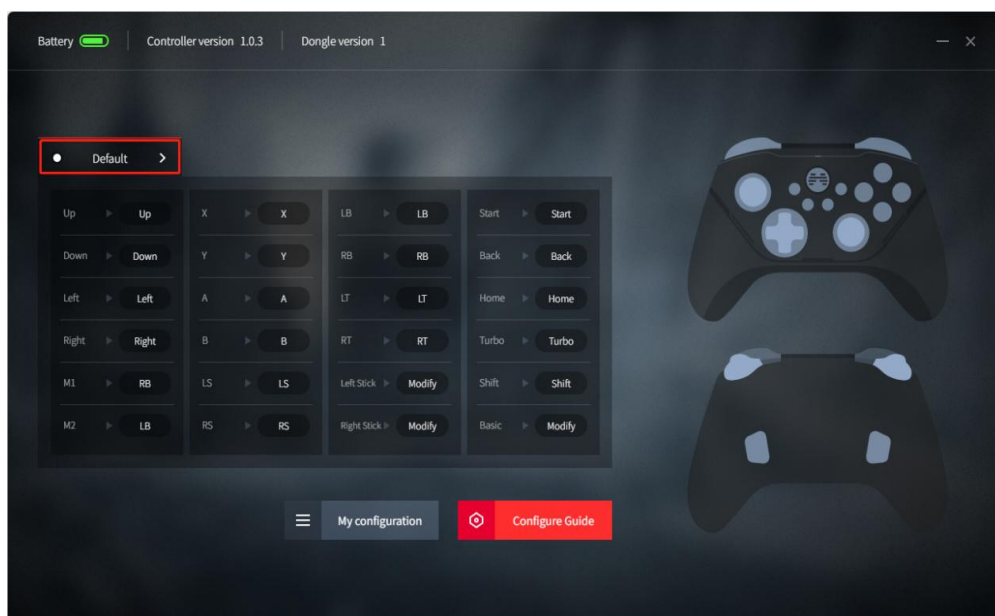

NOTE:

- ① It's recommended to confirm upgrade if prompted for a firmware upgrade, to experience any updated features.
- ② In order to use the BEITONG Gamepad Assistant normally, the Gamepad must be connected to the computer with USB cable.
- ③ Please feel free to run our secure program, if it can't be downloaded and run normally, try again after closing the antivirus software.
- ④ If the firmware upgrade fails due to factors such as signal disconnection, disconnection or poor contact, please unplug the USB cable and then re-plug again to resume the firmware upgrade.
