Decalcificazione Descaling process

La procedura di decalcificazione è descritta per intero all'interno dell'apposita sezione nel manuale d'istruzioni online.

The descaling procedure is fully described in the specific section of the instruction manual.

La formazione di calcare è una normale conseguenza dell'uso della macchina. È importante eseguire la decalcifica quando segnalato tramite l'apposito Alert*.
The limescale formation is a normal consequence of machine usage. It is important to perform the descaling when indicated through the dedicated Alert*.

*Non effettuare la decalcificazione dopo la segnalazione della macchina rientra nei casi di mancata attivazione dell'assistenza in garanzia.
*Not performing the descaling after the machine has shown the dedicated Alert, will invalidate the warranty assistance.
