

operation instructions

operation instructions : UniWirelessbank

Product model: UN16800MS

input (type-c) 5V-3A/9V-2A/12V/1.5A

input (Lightning) 5V-2A

Output current/voltage Type-c 5V-3A/9V-2.22A/12V-1.67A

Output current/voltage USB 5V/3A,9V/2A,12V/1.5A

Output current/voltage Wireless charging 15W (MAX)

mAh 10000mAh/3.85v/38.5Wh

Before using this device, please read the following instructions carefully:

- 1) Please keep this user manual for future reference.
- 2) This device should be avoided from being used in damp environments.
- 3) The operating environment temperature of this device cannot exceed 25 degrees Celsius.
- 4) This device must be used according to specifications and standards.
- 5) Before connecting this device to the power supply, please confirm whether the power supply matches the input power supply of this device.
- 6) Do not pour any liquid into this device to prevent water splashes, droplets, and to avoid fire or electric shock.
- 7) For safety reasons, this equipment cannot be disassembled arbitrarily. Only professional and skilled personnel can disassemble this equipment.
- 8) Suitable for use with IT equipment.
- 9) The disconnecting device of this product is a direct plug-in power plug, and the socket should be installed in a convenient position for operation.

Business Name: Magic Elite

Address: 14F.-2, No. 33, Mingzhe Rd., Sanmin Dist., Kaohsiung City 807, Taiwan (R.O.C.)

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is Subject To the following two conditions:

- (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not explicitly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Note: this equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and candidate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. During the operation of device a distance of 15 cm surrounding the device and 20 cm above the top surface of the device must be respected.
