FCC Notice:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Important Information:

Important Information: Before installing, read and follow all precautions, including the following: CAUTION: Suitable for indoor use only. **DO NOT IMMERSE IN WATER. DO NOT EXCEED RATED CAPACITY.**

Login

STEP 2

■ Plug In

Plug the Merkury device into the wall. Make sure the indicator light on the device is flashing rapidly blue, indicating the device is ready to connect.

*See reset instructions on p. 4

STEP 3 - 3 ways to connect

■ Easiest: Add using Bluetooth discovery

01.
Make sure your phone's Bluetooth is on and the indicator light is flashing. Press in the Merkury app.

02.
Click "Add Now" when prompted and follow app instructions

■ Add device: Easy Mode

01.
In the Merkury app, on the top corner of the Devices screen, click Choose "Smart Power".

02.
Make sure the indicator light on the device is flashing rapidly blue, indicating the device is ready to connect using Easy Mode. If not, press and hold the Button for 3 seconds until the indicator light is flashing rapidly, then press "Next Step".

03.
Enter your Wi-Fi network and password.

This app is supported only on 2.4GHz Wi-Fi channels

04.
The Merkury app will try to connect your device.
NOTE: Merkury can't connect to 5GHz networks.
*If the connection fails, try to connect using AP Mode.

Add device: Backup AP Mode

01.
Make sure the device is in AP Mode, blinking slowly
*see reset instructions on p. 4

02.
In the Geeni app, on the top corner of the Devices screen, click Choose "Smart Power"
Choose "AP Mode" in the top corner.

03.
Click Next and enter your Wi-Fi details.

04.
Follow the instructions
to choose the device
from your Wi-Fi list.

05.
The device will connect.
NOTE: Mercurly can't
connect to 5GHz
networks.

*How do I reset the device and what does the blinking light mean?

Reset the plug by pressing
and holding the button for 3
seconds until the indicator
light is flashing rapidly.
• Reset one time (press and
hold) to reach Easy mode
(Fast blinking blue, 2x per
second)

Frequently Asked Questions

- **Can I share with family and friends?**
Yes, you can share your plugs with family and friends who will have access to control your bulbs, plugs, cameras, and other Mercurly devices. In the Geeni app, press the Profile button and click on the "Device Sharing" button, and you will be able to give or revoke sharing permissions.
In order to share, the other user should already have downloaded the Geeni app and registered a new account.
- **Can I group multiple Mercurly devices together?**
Yes, you can group multiple devices of the same type together, by room, location, or however else you want. The same devices can be in multiple groups. (For example, create a group for "Bedroom" and another group for "Entire House", and your Bedroom lights can be included in both groups). From your main device list, click on one of the devices you want to group. Press the "..." button on the top right for advanced settings, and click Create Group. You'll then be able to choose which devices you'd like to group together and will be able to rename them.
- **How Many Devices Can I Control?**
Geeni app can control an unlimited amount of devices in an unlimited amount of locations. Your router may have a limit of how many devices can be connected to one router.
- **How do I rename my device? ?**
From your main device list, click on one of the devices you want to rename, press the "..." button on the top right for advanced settings, and click Modify Device Name (or Modify Group Name, if applicable). You'll then be able to choose a more familiar name.
- **The device appears offline or unreachable, what should I do?**
Make sure your Wi-Fi router is online and in range. Make sure you have the latest Geeni functionality by clicking "Check for firmware update" in your device settings.
- **What's the Wireless Range?**
The range of your home Wi-Fi is heavily dependent on your home router and the conditions of the room. Check with your router specifications for exact range data.
- **If my Wi-Fi/Internet goes down, will Mercurly still work?**
Mercurly products need to be connected to Wi-Fi in order to use them remotely.

Troubleshooting

■ Cannot connect to your Wi-Fi network.

Make sure you entered the correct Wi-Fi password during the Wi-Fi setup. Check whether there are any Internet connection problems. If the Wi-Fi signal is too weak, reset your Wi-Fi router and try again.

Reset the device

To Reset plugs, press and hold the power button for 3 seconds.

- Reset one time (press and hold) to reach Easy mode (Fast blinking blue)

System Requirements

- Mobile device running iOS® 13 or higher or Android™ 10 or higher
- Existing Wi-Fi Network (2.4GHz only)

Technical Specifications

- Input voltage: 120V
- Input frequency: 60Hz
- Max. load current: 15A
- Max. Power: 1800W
- Wi-Fi: IEEE 802.11n, 2.4 GHz
(not compatible with 5GHz Wi-Fi networks)

VOICE CONTROL GUIDE

Thank you for purchasing your MERKURY smart home product. Make sure your devices are already set up using the Merkury app, then follow these steps.

Name and Control Each Device by Voice

Contents

■ Voice Control Guide	
Google Assistant	08
Amazon Alexa	10

To control your MERKURY smart bulbs, plugs or surge protectors, just say "OK Google," or "Hey Google," and ask. Make sure your devices are already set up using the Geeni app.

Things you can say*:

"Hey Google, turn on all the lights in my bedroom."
 "Hey Google, turn off fan."
 "Hey Google, set the bedroom light to orange."
 "Hey Google, turn off the coffee machine."
 "Hey Google, set the living room to 50%."
 "Hey Google, dim porch light."

*Some commands require compatible devices.

01

- Open the Google Home app and go to Home Control in the menu.

02

- Tap the "+" button.

03

- Choose "Merkury" from the list of Home Control partners.

04

- Authorize your account with Google Assistant using the username and password from your Merkury app.

Now your Google Home app and MERKURY devices are linked!

You're now able to say "Hey Google" and control your MERKURY devices.

- At any time, go into the "Home Control" section of the Google Home app to set nicknames and rooms for your devices. **You can rename your devices in the Merkury app, and Google Assistant will refer to them by the same name.**

So if you rename a smart plug to "Living Room" or a nickname like "Blossom," then Google Assistant will use that same name later on. You can always give it a nickname using the Google Home app as well. **You can also assign plugs to a specific room, like "Bedroom" or "Kitchen."**

Google Assistant will be able to control devices by room.

To control your MERKURY smart bulbs, plugs or surge protectors, just ask Alexa.
Make sure your devices are already set up using the Geeni app.

Things you can say*:

"Alexa, discover my devices."
"Alexa, turn on the bedroom light."
"Alexa, set the bedroom light to orange."
"Alexa, turn off the coffee machine."
"Alexa, set the living room to 50%."
"Alexa, dim porch light."

*Some commands require compatible devices.

01

- Open the Alexa app and go to Skills in the menu.

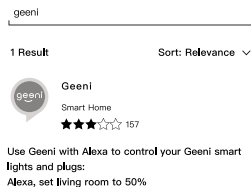

02

- Search for Merkury then tap Enable.

Search

03

- Authorize your account with Smart Home Skills using the username and password from your Geeni app.

04

- Choose "Discover Devices." After a few seconds your MERKURY devices will be displayed under Smart Home in the Alexa app.

Discover Devices

Smart Home devices must be discovered before they can be used with Alexa.

- You can rename your devices in the Merkury app, and Alexa will refer to them by the same name.

So if you rename a smart plug to "Living Room" or a nickname like "Blossom," then Alexa will use that same name later on.

Alternatively, you can create an Alexa group, like "Bedroom" or "Downstairs," and add the device to the group.

Alexa will recognize the group name in the Alexa app, or the device name in the Merkury app.
