Quickstart Guide

Step 1

Use template to cut hole.

Step 2

Connect supply & junction wires.

Step 3

Attach fixture to junction box.

Step 4

Insert fixture into ceiling.

Installation Guide

STEP 1

- Turn off circuit breaker before installation.
- Cut out 6.33" housing size on Installation Template, then tape onto ceiling in desired location.
- Cut ceiling hole using Installation Template as a guide.

STEP 2

- Open junction box and remove appropriate knockout.

STEP 3

- Thread cable connector through knockout, secure wires with screws, attach cable connector nut on opposite side, & connect supply & junction wires with wire nuts.
-Black to Black (Live) ; White to White (Neutral)
- Tuck connected wires inside junction box & close cover.

B

STEP 4

Slide the CCT Selection Switch to choose from five color temperatures. Insert junction box through ceiling hole.

a. New Construction Applications: Secure to studs, joists, or similar fixed structural units.

b. Remodel Applications: Do not require to secure to studs, joists, or similar fixed structural units.

STEP 5

a. Attach fixture to junction box using connector as shown on image (1).

b. Tighten connector by hand (2).

STEP 6

a. Push up spring clips and insert fixture into ceiling.

b. Turn on circuit breaker and test light.

Specifications

Voltage	120 V	Average Lifetime	50,000 Hours
Wattage	14 W	Lumens	1500 lm
Wattage Equivalency	120 W	Moisture Rating	Damp Rated
Beam Angle	120°	CRI	80+
Weight	0.6 lbs	Usage	Indoor
Housing Material	Plastic+Metal J-box	IC Rated	Yes
Dimmable	YES	Warranty	7 Years

Common Troubleshooting

We've got you covered! Our troubleshooting section is here to shed some light and provide you with easy-to-follow solutions for any problem.

If you still need some assistance, feel free to contact us. Our team of lighting experts are happy to help brighten your day.

Installation

Light isn't turning on.

Double check if fixture is properly connected and circuit breaker hasn't been tripped.

Light unexpectedly fails.

Reach out to customer support.

Dimming

Light not dimming to lowest setting.

Ensure minimum dimmer load requirement is met.

Light not dimming smoothly.

Verify dimmer compatibility with fixture.

Light not compatible with dimmer switch.

Check light-dimmer compatibility.

Flickering

Light is flickering when turning on.

Check that fixture wiring connections are secure.

Light flickering with other lights on the same circuit.

Check that the lights are not overloading the circuit.

Light flickering when turned on.

Verify fixture compatibility and that it is grounded.

Light flickering when dimmed.

Verify dimmer switch compatibility.

Buzzing

Fixture buzzing with power outages.

Verify light is connected to surge protector securely.

Fixture buzzing with electronic devices.

Look for nearby interferences that can cause buzzing. Such as televisions, radios, computers, etc.

Fixture buzzing when dimmed.

Verify dimmer switch compatibility.
