Extract, Recycle, and Reuse Technology

Water Straight from the Air

RV70 Pro Ultra's air condensation technology extracts moisture, enabling self-sustaining and eco-friendly cleaning while maintaining optimal humidity levels.

Purified Water, Zero Sewage Hassle

Recycled sewage water is purified and replenished for endless, refill-free cleaning. Dust is captured, water renewed.

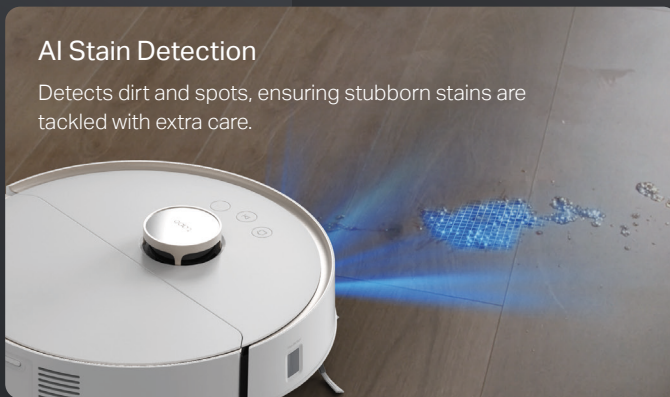

Advanced Obstacle Avoidance with AI

With an RGB camera, 3D structured light, and AI algorithms, the robot recognizes and avoids items like cables, slippers, and pet toys, ensuring efficient cleaning.

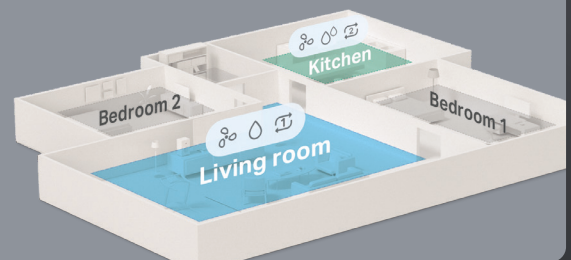

AI Stain Detection

Detects dirt and spots, ensuring stubborn stains are tackled with extra care.

AI Cleaning Strategy

Intelligent recognition of room layout and furniture features to customize cleaning solutions.

Outstanding Vacuum and Mopping Efficiency

Meticulous Mopping with an Extendable Robotic Arm

More extreme edge coverage and cleanliness than conventional mopping.

18000Pa

18000Pa Superb Suction

Unparalleled suction power excels at any vacuuming job.

Anti-Hair Entanglement

Easily handles long hair and pet hair. No need for frequent brush maintenance.

Ultrasonic Carpet Recognition

Intelligently identifies carpets, with customizable cleaning modes via the Tapo app.

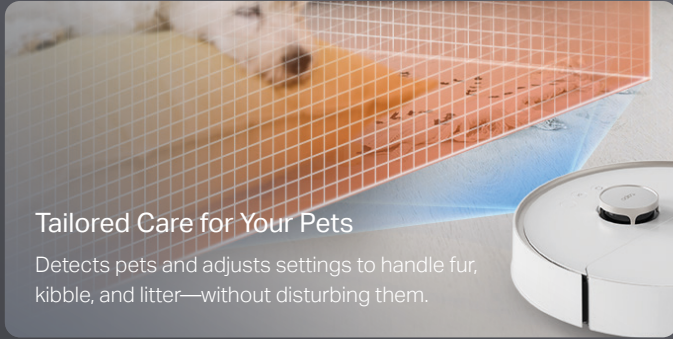

Mop Removal for Effective Carpet Cleaning

Automatically removes mopping cloths when cleaning carpeted areas to keep them dry.

Tailored Care for Your Pets

Detects pets and adjusts settings to handle fur, kibble, and litter—without disturbing them.

Cherish Every Pet Moment

Spots your pets and captures their playful moments for lasting memories.

Dust-Free, Stress-Free

Robot Vacuum and Mop with Auto-Empty Dock

Tapo RV30 Max Plus

5300Pa

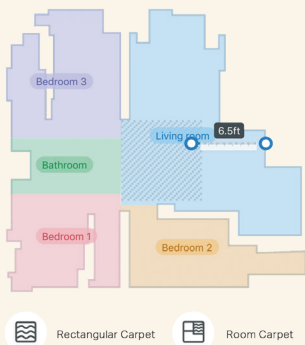

Ultra-Powerful 5300Pa Suction

Delivering an impressive 5300Pa of suction power, the robot effortlessly captures dust, pet hair, crumbs, and hidden dirt, ensuring thorough cleaning across hard floors and carpets for a spotless home.

Carpet-Friendly Cleaning with Intelligent Features and Easy Disposal

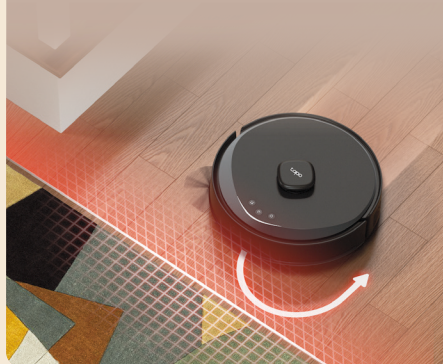

Map Carpets & Rugs

Add your carpets and rugs to the map by size or room, then set your desired cleaning preferences.

Personalized Carpet Care

In mopping mode, the robot smartly detects and bypasses carpets based on the map to ensure they remain dry.

Auto-Empty with 3L Dust Bag

Handles up to 2 months of debris, perfect for capturing the extra dust and hair from deep carpet cleaning.

Versatile and Efficient Cleaning for Every Floor Surface

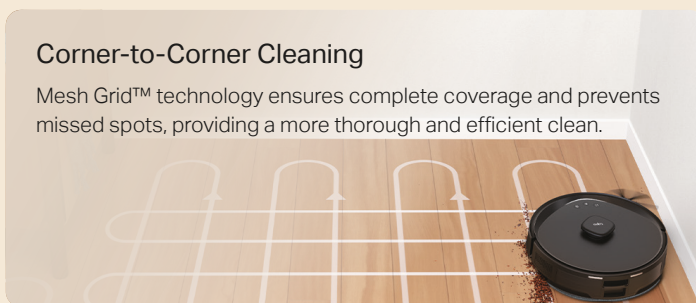

2-in-1 Vacuum & Mop

Combines powerful vacuuming and mopping with adjustable water flow for effective cleaning across all floor types.

Corner-to-Corner Cleaning

Mesh Grid™ technology ensures complete coverage and prevents missed spots, providing a more thorough and efficient clean.
