FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may be undesired operation.

Cause of undesired operation not to be taken into account for the purpose of compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not properly installed and used, may cause interference to other equipment. If you are experiencing interference, the following instructions may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If you are experiencing interference, you may wish to take the following steps:

- Turn the equipment off and on to see if the interference stops.
- Move the equipment so that it is not sharing an outlet from the same circuit that can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Plug the equipment into a different wall outlet from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirements.
