## IV. Precautions during use

1. In order to avoid mishaps, be mindful of your surroundings when using the floor brush. Avoid using it on wet or uneven surfaces.
2. If there is an abnormality when it is being used, please cease using it right away if you are unsure how to handle it. You can also visit the after-sales service or read the manual to troubleshoot.
3. If you need to change the brush rollers for usage, make sure they are installed properly to avoid the assembly malfunctioning.
4. Avoid rinsing any portion of the brush's surface with water directly to avoid water damage to the brush's electrical components. Also, make sure to wring out the cleaning cloth before scrubbing, and clean the brush with a brush when removing rubbish from the bottom of the brush.
5. After using a rolling brush, there are tangled hairs, fabric lines, etc. Please remove carefully before the rolling brush becomes stuck and unable to function.
6. When using the adaptive vacuum cleaner, pay attention to its instructions and utilize it accordingly.

## IV. Precautions during use

Please follow the steps in the table below first, but the product still does not work properly, please contact after-sales service for assistance. If the product does not work, is damaged or accessories are damaged, please contact customer service after-sales, for your safety, do not repair yourself.
