

This product is a smart accessory **requiring** to install a starter pack or a gateway «... with Netatmo»

Pack contents

Connected switch with neutral

Site protection

Frequency bands: 2.4 - 2.4835 GHz - Power level: < 100 mW

Characteristics

In default operating mode (on/off), this switch works with the following bulbs :

Do not use a smart bulb with the connected switch with neutral (with dimmer option).

+35° C +5° C	2 x 1,5 mm ²		LED		
110-240 ~ 50/60 Hz					
240 VAC	Maxi.	150 W	(*) 150 VA	150 VA	150 VA
110 VAC	Maxi.	75 W	(*) 75 VA	75 VA	75 VA

(*) or 15 bulbs max. For comfortable lighting, we recommend using bulbs of the same type and make.

Product NOT COMPATIBLE with ferromagnetic transformer. Risk of product breaking.

In dimmer option operating mode (which can be activated via the App), this switch functions only with dimmable bulbs (identifiable by the logo on packaging).

LE17062AA

Tip if replacing a two-way switch:

old flush-mounted switch replaced by the wireless switch.

Use a **connector** to connect all 3 wires together (travellers 1 and 2 and lamp return wire).
Use an other connector for neutral wire.

Before starting : wiring precautions

If you plan to install two-way light switches, read the following precautions :

To control a light with **two or more switches**, only use the following products :

Connected switch with neutral (with dimmer option)

AND

x1 or several

Wireless switches for all control points (not included in this pack)

x1 or several

AND/OR

x1 or several

AND/OR

up to 5 push buttons (not included in this pack)

Do not use: two connected switches (with dimmer option) to control the same lighting point.

2

1 Necessary safety precautions

OFF
Switch off the power at the main circuit breaker

2
Make sure that the power is off before continuing with the installation.

2 Wire the connected switch with neutral (with dimmer option)

1 Wire the connected switch

The connected light switch (with dimmer option) works with standard bulbs or dimmable bulbs including LEDs. Using dimmable LEDs is mandatory if dimmer mode is activated.
