

Quick set up guide:

TOKK™ SMART SELFIE TRACKER PR1

PRED
TECHNOLOGIES™

Thanks !

We hope that you will enjoy your new TOKK™ Smart Selfie Tracker.

Please refer to the user guide below, the Tracker should be recharged but we encourage you to give it a quick 10 minute charge (4) before setting it up.

To properly set up your new Tracker, please use below quick user guide, in addition do not hesitate to watch our videos on our youtube channel: tokk tech, contact us by mail: contact@tokktech.com or visit our website www.tokktech.com
If you encounter any issues setting up your tracker, call us and we will be very happy to help you.

Our customer service phone number is +1 858 999 2114 ext 1.

1. Place your Phone on the clamp (1) and adjust the knob (2)

- you can insert your phone vertically or horizontally.
- open the application you want to use, Video, FaceTime, Zoom...and adjust the angle of your phone accordingly.

2. Turn On/Off the device: Long press for 2 seconds on the Power Button (3)

3. When the camera captures your face, the blue light (4) will come on, and the tracker will start working.

- the tracker will track your face and body movement in real time.
- In the case of multiple bodies or faces, the device will automatically track the first human body detected.
- For best performance the device should be placed from 3 to 15 feet away from your face.

4. The tracker will automatically turn off after 15 minutes if no movement is detected.

5. If a red light (4) turns on during use, it indicates that the battery is low.
